

French Launch An Attack On Bizerte

Guard, Reserve Summons Would Cost US \$5 Billion

Some Air Support Units Could Be Called In Too

WASHINGTON (AP) — Any mobilization of National Guard and reserve ground forces may be matched by action to increase correspondingly the tactical air support for foot soldiers.

And this could mean that some Air Force Reserve and Air National Guard men would be called to active duty.

Tshombe May Ask Red Aid

United Congo No Appeal To Government

ELIZABETHVILLE, Katanga (AP) — Moise Tshombe's Katanga government threatened today to seek Soviet help to prevent this rich province from being forced to join a united Congo.

The minister of the interior, Godefroid Munongo, charged that the U.N. Security Council and the United States was determined to unite the country "without taking into account the legitimate aspirations of the Congolese people."

He told a news conference the Security Council would not hesitate to use its "international military potential" to get its way.

Declaring he was speaking for Tshombe, who is supposed to be ill, the Katanga cabinet minister said, "If the future of our country demands it we shall not hesitate, with our African brothers, to call for Soviet aid."

The Soviet Union has repeatedly denounced Tshombe as lackey of the Belgians.

The threat of the Katanga government came as the members of the three other Congo factions — President Joseph Kasavubu's central government, the leftist regime of Antoine Gizenga and the separatist mining state of South Kasai — gathered at Lovanium University outside Leopoldville for a reopening of the Congo Parliament.

Spray Machine Poses Serious Safety Problem

Willard Morris, city sanitation officer, expressed concern today for the safety of Sedalia children riding bicycles into the fog of the city's new insect spray machine.

Morris told The Democrat-Capital this morning that auto drivers are not heeding the red light on the vehicle. He said drivers are following the vehicle in the fog and that it is impossible to see any distance.

Morris said it was all but impossible to keep the children from riding bicycles in the fog but asks that auto drivers exercise extreme caution in driving near the fog machine while it is in operation.

Asking that both auto drivers and parents cooperate in this matter, Morris said, "It would be a terrible thing for some child to be injured or even killed in our efforts to rid the city of insects."

'Sunshine' Edition Frowned On By Sun

ST. PETERSBURG, Fla. (AP) — Tropical storm Brenda dumped more than 12 inches of rain on Florida the last time the St. Petersburg Independent gave away its "sunshine" edition of the paper.

That was July 29, 1960. The Independent gave another edition, the 212th, away, Wednesday when the sun failed to shine on the Independent building for 24 hours.

The paper started the practice in 1910 to promote St. Petersburg as the "Sunshine City."

Okay On \$7.3 Billion

Foreign Aid Bill Victory for JFK

WASHINGTON (AP) — President Kennedy won a major foreign-aid bill victory today when the Senate Foreign Relations committee voted to authorize Treasury borrowing to finance a five-year, \$7.3-billion economic aid loan program abroad.

Sen. Hubert H. Humphrey, D-Minn., said the committee was to

act later on Kennedy's request for additional authority to use \$300 million a year for five years for repayments of past foreign loans.

This would supplement the financing of the development loan program.

Humphrey, who left the committee meeting early, said his recollection was the vote in favor of Kennedy's loan fund request was "about 10 to 7."

Chairman J. William Fulbright, D-Ark., kept the foreign relations group on a busy schedule in an effort to clear the legislation.

The President wants to borrow \$900 million this year, and \$1.6 billion for each of the succeeding four years.

Some congressmen object to Kennedy's proposed financing. They insist aid funds should be approved in advance each year by congressional appropriations committees. And they want to limit the authority to three years, instead of five.

Supporters of Kennedy's program argue that because Congress often appropriates less than it authorizes, the critics' plan would make it impossible to assure developing nations that funds would be available for long-term projects.

TEST RUN—A Thor engine is tested in a stand at the Rocketdyne plant near Neosho, Mo. The plant has two stands like this one. Operations on both are directed from a centrally located control center.

With Allied Powers

Talks On Berlin Are Believed Near

WASHINGTON (AP) — The United States was expected today to begin immediate consultation with the Allied powers on President Kennedy's decision for reinforcing Allied military power to meet the Soviet threat over Berlin.

Kennedy met with his top diplomatic and military advisers in a session of the National Security Council at the White House late Wednesday.

Press secretary Pierre Salinger said after the meeting "there were decisions made." He said that the administration now enters into "the phase of consultation with our allies."

Kennedy's specific decisions were not disclosed, but it is believed that he made a basic policy determination to increase the size of U.S. armed forces to meet the Berlin crisis. He made clear at his news conference Wednesday he considers the threat to be worldwide.

Present U.S. regular Army and Marine Corps ground strength totals about 1,032,000, of which 856,000 is Army. In the reservoir of ground forces are about 399,000 national Guard troops, 300,000 trained Army reserves and 208,000 in the ready reserve of the Marine Corps.

Administration officials had been saying privately for several weeks that the developing threats against Berlin by Soviet Premier Khrushchev provide the focal point of danger at present but that the peril to U.S. interest in such distant places as Southeast Asia, which Kennedy himself had mentioned at the news conference, must be taken into account.

Another security council meeting was scheduled for today. But it was understood to have been called to deal with problems other than Berlin.

The President has clamped a secrecy lid on Wednesday's decisions pending a TV-radio report to the nation next Tuesday night and a message to Congress on Wednesday.

Radio Reports Heavy Damage

Undeclared War Waged In Move To Drive French Out of Africa

TUNIS (AP) — Radio Tunis said the French launched a coordinated attack by land, sea and air today against Tunisian barricades surrounding the French naval base at Bizerte.

The broadcast reported the city of Bizerte badly damaged in the attacks and its water and electricity supplies cut.

The French were silent on this latest report from the undeclared war aimed at forcing the French out of the big North African base.

But President Habib Bourguiba mounted a diplomatic offensive to back up his civilian-military show of force. He took the case to the United Nations and broke diplomatic, but not consular relations with France over the issue, a bone of contention between France and its former protectorate long before violence broke out Wednesday.

Tunisian troops and civilian volunteers resisted the French attack "heroically," the radio said, and they suffered numerous dead and wounded.

Radio Tunis said French planes from the carrier, Arromanches, fired rockets in low-level attacks on the barricades. It added that the planes were backed up by the bug guns of the cruisers, Colbert, Bouvet and Chevalier Pual. This reported artillery barrage appeared to be a cover for thrusts made by French armored cars and tanks.

The Tunisian president, trying to drive France from the big naval base it retained after its Tunisian protectorate gained independence in 1956, told a news conference 24 Tunisians had been killed in clashes with French troops.

Sources in Paris said two French soldiers had been killed and 20 wounded in clashes with the Tunisians Wednesday and early today.

The French also said their commander in Bizerte had turned down a Tunisian request for a truce this morning on the ground that a truce could only be arranged between military forces. The French commander called on the Tunisians to withdraw the women and children among the civilian volunteers swelling the ranks of the Tunisian soldiers around the base.

Bourguiba said a special Tunisian representative would arrive in New York tonight to present a Tunisian complaint against France to the U.N. Security Council. He called for a council meeting tonight or Friday.

Bourguiba, who earlier this year helped bring President de Gaulle and the Algerian rebels together for peace negotiations, was bitter in comments on the French president today.

"The French attitude," he said, "is dictated by a persistence of a colonial mentality and by De Gaulle's own obsession for grandeur."

"Once France has lost her colonial complex, then it will be possible for us to cooperate with her," he said.

Both French and Tunisian sources reported an exchange of artillery fire between Tunisian gunposts and French gun emplacements on the Sidi-Ahmed naval base, heart of the French military complex around the harbor and lake of Bizerte.

The Tunisians said that French batteries at Sidi-Ahmed opened fire on a Tunisian patrol at 5 a.m. today. In Paris, French sources said Tunisian artillery rained shells on the French base at 4 a.m.

The Tunisians said that their patrol entrenched itself in a railway station and fired back at the French with small arms, setting off a fire on the base.

The Tunisians also claimed a French unit was thrown back when it tried to force its way through a Tunisian roadblock at Menzel-Bourguiba, on the outskirts of the Bizerte area. The Tunisians said 50 of their men were wounded in the clash.

French authorities in Paris denied that the clash had occurred.

Tunisian officials also charged that French forces at dawn sabotaged the rail line from Tunis to Bizerte, near Sidi-Ahmed.

Derby Weekend Opens Friday

A crowd of spectators second only to that seen at the Missouri State Fair, is expected to converge on Sedalia this weekend to view the first running of a Soap Box Derby in central Missouri.

The event, with 58 boys entered, will be held at the State Fairgrounds, starting at 1 p.m. Sunday. The track grounds will open at 12 noon and there is no admission charge, according to the Sedalia Jaycees, sponsors of the race in cooperation with the Mike O'Connor Chevrolet Co.

Just prior to the official start of the race, Mayor Abe Silverman and Chamber of Commerce President, Sam Boyle, will participate in a special "Oil Can Derby" and the winner will receive a trophy. Seven trophies will be awarded boys entered in the competition, according to W. D. Hill, Derby Director.

Sedalia's champion will carry the Sedalia banner to the All-American Race in Akron, Ohio, on Aug. 20, where he will compete for \$15,000 in scholarship prizes.

Elimination heats are expected to require about four hours to run off Sunday. Jaycees estimate and say the main event—the championship race between the winners of the Class A and Class B heats—will be run about 5 p.m., but the entire afternoon should be exciting.

The classes are broken down according to age to insure that all boys have an equal opportunity and to insure that the younger ones get a "crack" at the title. The boys range in age from 11 through 15.

The gravity-propelled cars will start from a special ramp that gives them an equal start when a gate is dropped permitting the cars to roll onto the track.

Special bleachers are being provided for the race by Whiteman Air Force Base.

by the Jaycees and profits from sales will be used to help meet race expenses. A special souvenir program consisting of more than 150 pictures will be on sale for \$25 a copy. The program also includes pictures, of girls—age 11 through 15—entered in the Derby Queen contest.

Derby Queen to Be Named Nearly 60 young central Missouri girls will be vying for the title "Queen of the Sedalia Soap Box Derby" at a coronation Ball to be held Friday night at Convention Hall.

The girls are from the 9 central Missouri counties. The contest is being handled by the Jaycee Wive, Club. Tickets to this event, the only derby event where admission is charged, are \$1 for adults and \$5 for all 15 years of age and under.

Funds derived from ticket sales will also be used to help Derby costs of sending the local champion to the All-American race at Akron.

Mayor Abe Silverman will crown the queen and she will reign throughout the three days of activities.

Parade on Saturday More than 120 central Missouri youngsters will get the "thrill of a lifetime," when they parade down Ohio Avenue Saturday afternoon.

Many of the youngsters will be boys and they will be displaying the Soap Box Derby cars they will ride in the big derby race. Girls in the parade will be contestants in the Derby Queen contest.

The queen and her attendant will be riding in a special convertible provided for her by Mike O'Connor.

Starting time for the parade is 2 p.m. and entries will form at Seventh and Ohio at 1 p.m. The parade route will be north.

C of C president in the "Oil Can Derby" just prior to start of the official race will be special racers. "They will be built by members of the Jaycees and there are rumors of a couple of two-by-fours placed on a set of official derby axles and wheels, so it should be an interesting highlight."

It appears that the first derby is headed for

1 per cent above last year, and the largest crop since 1947. Consumers who are looking for easy desserts, fruit to freeze or can, or for tasty fresh fruit for snacks—will say "peaches" when shopping.

Pick the Best of these peaches. Get the feel of mature fruit. The best are neither too hard nor too soft. You can select peaches by holding them gently in your hand. There is no need to squeeze—You will see peaches in many colors, ranging from almost white to yellow to blushing pink. But watch out for ground or under color. A peach with a slightly green cast or under color is not fully ripened and will not mature properly—Be on the lookout for peaches with bruises, brown spots or cuts and other injuries.

Store Ripe Peaches in the refrigerator until ready to use. Use within a few days for best in flavor and texture. If peaches are not quite ready to eat, let them ripen at room temperature.

When the price of a pound of fresh peaches is about 60 per cent of the cost of a No. 2-1/2 can of peaches, the cost per serving is equal. When the price of one pound of fresh peaches is about 80 per cent of the cost of a pound package of frozen peaches, the cost per serving is equal. When price per pound of dried peaches is twice as much as one pound of fresh peaches, the cost per serving is equal.

To Can Peaches—Use a medium to 40 per cent syrup which is 3 cups of sugar to 4 cups of water. To cold pack, place fruit firmly into jars to 1/2 inch of top, cover with boiling syrup. Remove air bubbles, wipe top of jar, adjust lid. Process pints 25 minutes, and quarts 30 minutes.

To Freeze Peaches—place cold syrup in container. Slice peaches into syrup, press fruit down, add syrup to cover. Seal and freeze. For a better quality product, add ascorbic acid to the syrup.

Peach preserves are enjoyed by many, especially homemade ones,

USDA Economics give the instructions for making a tasty dish: Allow 3/4 to 1 pound (1-1/2 cups) of sugar to each pound (about 3 cups) of peach slices. Combine the fruit and sugar in alternate layers and let stand 8 to 10 hours, or overnight, before cooking. Stir carefully until they reach the boiling state. Boil rapidly until the syrup is thick, stirring constantly to prevent burning. Pour at once into hot sterilized jars and seal.

Fresh Peach Pie: 3 cups peach slices, 1 tablespoon lemon juice, 3/4 cup sugar, 3 tablespoons cornstarch, 2 teaspoons butter, dash of salt, 1/4 teaspoon almond extract (optional), 1 baked 9 inch pastry shell. Combine peaches, sugar and lemon juice. Let stand 1 hour. Drain. Measure 1 cup syrup (add water to make one cup if necessary), add cornstarch and blend. Cook over low heat stirring until thick. Remove from heat, add salt, butter and flavoring. Cool. Place peaches in shell. Pour cooled sauce over. Serve with whipped cream or ice cream.

Accessories Must Be Suitable
Buy good accessories! Don't splurge on special touches until you have the necessary accessories. One set of carefully chosen, good accessories worn with different suits or dresses is better than a cheap set of accessories for each suit or dress. Accessories with simple clean-cut lines are smart every day of the year and can be worn as often.

It should be fun to choose your accessories and a pleasure to wear them. They should carry out some color note and may—harmonize and blend with colors or dress—contrast or accent some color—and repeat the color of the costume.

Remember—the accent color is never repeated in more than three places, so some of the accessories may be in your basic color. A good rule to follow: the brighter the color the smaller the amount needed for contrast or accent.

Shoes—Shoes can make or break the effect of your carefully chosen clothes. Comfort is the very first thing to look for in shoes—no matter how well they look. No shoes are right for the costume unless they are also right for you wearing the costume.

For School, sportswear and walking—flats (saddle shoes and loafers) are most girls' choice. There are dressier flats for occasions when the old school loafers aren't quite good enough.

For your suit or tailored costume, a tailored shoe, such as a pump is always good. The formal dress will require a party shoe—

Cause for Letter

UNITED NATIONS, N.Y. (AP)—Forty-four African and Asian nations drafted a letter Tuesday calling for U.N. General Assembly debate on South Africa's race policies.

Alex Quaison-Sackey of Ghana, chairman of the group, said the letter will be delivered today to Secretary-General Dag Hammarskjöld, thus assuring it a place on the assembly's agenda.

perhaps a sandal. Colored shoes may provide just the extra bit of color that is needed for your outfit, but remember—they do call attention to your feet. Since good shoes are expensive, they usually should be in your basic color.

Purse—When you select a bag, your own size should be considered. The large tall girl can use the large bags, while the small bags are for the smaller girl.

If you are wearing a plain leather shoe, choose a plain leather bag, color matched, to complete the outfit for dates and dress-up times.

An inexpensive tote bag, or the smaller "clutch" type are fine for school, with a special little bag to go with your party slippers.

Gloves—Gloves are "go withs." They go with your bag and are

always worn for important occasions. When Mother was a girl, gloves were worn only when hats were worn—that isn't true today. They are to be worn, or put in your purse. Don't be a "dangler" with your gloves.

When you wear white gloves, be sure they are spotless.

Belts and Scarves—You may have several of these in your drawer to combine with your skirts and sweaters, or change a simple dress. Scarves are good standbys—they may be tied around your neck, fill in the neck of a suit, hang from a pocket, fall from a belt, or even serve as a belt.

Select those that harmonize or will provide an accent in color and texture and design with the rest of your costume.

Hats—There are many places you can go that a hat won't be necessary, but you will use them for church, teas, and other dress-up occasions.

You may want berets or similar styles for casual wear; with felt or velvet for other occasions, depending upon the current style. Match them to your gloves or some other part of the costume to complete a color combination.

Jewelry and flowers—This bit of frosting for your costume gives sparkle and a lift, both to you and your outfit. It is useful as a color

accent or to emphasize some line or feature.

Use discretion when you combine flowers, jewelry, and scarves. Keep in mind "two's company, three's a crowd" and particularly so in the matter of accessories.

Putting them together—An ideal wardrobe (at least that's a goal

toward which to work) would have clothes that are: suitable for your personality, correct in line and design, becoming in color, suitable for your accessories, with your price range, appropriate for the occasion.

Quite an order? Not really so, when you have carefully chosen

your clothes and accessories for color and line. Score yourself as you dress for each occasion until you feel that you are certain of your choices.

DID YOU KNOW? One peach contains about 46 calories—so it is an excellent choice for that in-between snack.

Clear At Race Keeping Track Is Stressed

A heat every five minutes is the schedule Soap Box Derby officials hope to maintain during Sunday's big race, according to Track Director Charley Edwards.

"But this will depend on co-operation by the spectators in keeping the track clear at all times during the race," Edwards said.

According to the schedule a pair of cars will be placed on the starting ramp immediately after a set of racers start down the track. At other races, Edwards said, parents and friends often scurry to the finish line to congratulate a boy on winning a heat and the entire race is disrupted.

A "snow fence" has been secured by the Jaycees, sponsors of the event, for placing alongside the track in an effort to maintain crowd control and the track will also be patrolled by Jaycees.

The greatest danger on the track to both drivers and spectators is someone being on the track. Most injuries at other derby races have occurred when a spectator has rushed to congratulate

the local champ can look forward to four days of fun, good-fellowship and excitement when he journeys to Akron, O., to participate in the 1961 All-American Soap Box Derby championships, Aug. 20.

Sirens will be blaring and those who do not see the champion in his greatest hour at the track will see him then.

The local champ will be whisked through the downtown section in an open red convertible with an escort headed by Police Chief Ralph Hamlin and Sheriff Emmett Fairfax.

During the Derby weekend the Sedalia champion will be entertained on a scale befitting his championship position. He will stay at "Derbytown," a boys' camp nine miles from Akron. A round of sports, tryout of the Derby Downs famous racing slope, planned recreation and plenty of good food will be arranged for the local champ from the minute he arrives at Akron on Thursday before the race until he leaves.

Sedalia's champion will be whisked down Akron's main street with a police escort to an official welcome at Derby headquarters. There he will receive the cheers of the crowd and a special serenade by a band as he mounts the Golden Stairs, reserved for champions, and enters headquarters to register.

Then on to Derbytown, a beautiful location beside a lake, where the local champ will make friends of other standout boys from all over the world. Besides the lake, which affords supervised swimming and boating, Derbytown is equipped with tennis courts, baseball diamonds, horse riding facilities, a recreation hall with stage, a modern mess hall, a "post exchange" and a fully staffed medical unit.

The boys will sleep in small groups in modern cabins and at all times will be under the supervision and guidance of experienced counselors. They will be taken from the camp by buses to meet the various engagements on their busy calendar of fun and play in and about Akron. Parents may visit the camp at specified times.

Sedalia's champ will have plenty of time to service his racing car and to test it on the championship course at Derby Downs before the big race Sunday afternoon, Aug. 20. Prior to the race he will participate in the pre-Derby parade and will carry his town's banner before the approximately 75,000 spectators jammed in the colorful Derby Downs. Highlight of the weekend is the big race, particularly when the local champ makes his first bid for victory. Climax will be the Banquet of Champions Sunday night when all the participating boys are guests of honor at dinner which is attended by civic leaders, race officials, industrial executives, parents, friends, press representatives and Chevrolet officials.

All prizes and trophies are awarded to champions at the banquet, a fitting close to a holiday for a hero, the winner of Sedalia's Soap Box Derby.

late a winner and have been run over, Edwards said.

"A 250 pound racer can seriously hurt someone especially when it is running at 25 to 30 miles an hour. Too, the driver could suddenly swerve his car and turn over in an attempt to avoid hitting a relative or friend," the track director said.

Soap Box Derby Runoffs Schedule

Class "B" Boys Age 11-12 (29 cars)

First Round, 14 races, one Bye, 15 winners.
Second Round, 7 races, one Bye, 8 winners.
Third Round, 4 races, 4 winners.
Fourth Round, 2 races, 2 winners.
Fifth Round, 1 race, 1 winner (Heat Champion)

(Total races 28)

Class "A" Boys Age 13-15 (24 cars)

First Round, 12 races, 12 winners.
Second Round, 6 races, 6 winners.
Third Round, 3 races, 3 winners.
Fourth Round, 1 race, one Bye, 2 winners.
Fifth Round, 1 race, 1 winner (Heat Champion).

(Total races 24)

Championship Race Between Heat Champions (Class "B" Class "A")

One Round, One Champion

(Total Number of Races 52)

(Byes will be necessary where there is an uneven number of contestants. When a Bye occurs, straws will be drawn and the boy with the longest straw will be an automatic winner without having to race. The drawing will be held before that round is run.)

Soap Box Derby Schedule Of Activities for Weekend

FRIDAY

2 p.m. — Preliminary judging of derby queen contestants. Convention Hall. Judges, Derby Contestants. Public invited.

8 p.m. — Queen Contest, derby dance, coronation ball. Convention Hall. Public invited. Admission \$1 adults, \$50 for all 15 and under.

12:30 p.m. — Parade entries gather at Smith-Cotton High School parking lot.

1:00 p.m. — Parade forms at Seventh and Ohio.

2:00 p.m. — Parade north on Ohio Avenue.

SUNDAY

10:00 a.m. — Derby contestants to be at track with racers for inspection.

12:00 noon — Track opens.

1:00 p.m. — Opening ceremonies.

1:15 p.m. — Oil Can Derby race between Mayor Abe Silverman and Chamber of Commerce President, Sam Boyle.

1:30 p.m. — Class "B" Heats (28 races).

3:00 p.m. — Intermission.

3:30 p.m. — Class "A" Heats (24 races).

5:00 p.m. — Championship race (one race).

5:10 p.m. — Awarding of trophies.

5:45 p.m. — Champion to be escorted through downtown Sedalia in open convertible, escorted by Chief of Police Ralph Hamlin.

(In event of rain, derby race will be rescheduled for Sunday, July 30, with the same schedule.)

High Interest Expected For Farm Day Meet

The Rural-Urban Day meeting to be held at the Frank Riley farm, located eight miles north of Warrensburg, has an interesting program for the day, according to Dick Monsees, president of the Pettis County Farm Bureau.

"Facts about the economics of the livestock and meat industry, as well as the dairy industry will be presented by farmers, market experts and economists from the

College of Agriculture," Monsees said.

The livestock and dairy business accounts for about 65 per cent of the farm income of this area, Monsees pointed out. "The creation of this new wealth on the farms has a tremendous effect on the social and economic stability of the community. To spend a little time appraising the factors that affect the economy of the area is a genuine opportunity and privilege for both producers and businessmen."

The Rural-Urban Day program starts at 10 a.m.

Cost Is Too High; So Please Bend Axle

While test-driving his racer, a Soap Box Derby entrant this week bent the axle. He asked his father what to do about it. The race is Sunday and the boy was worried.

The father told the boy he might possibly take the bent axle to a well-known Sedalia auto clinic, but that the cost might be pretty high.

The boy decided to take a chance, anyway, and took the bent axle to the clinic. He told the machinist his father had said the firm did good work, but was too high priced.

The machinist took the bent axle into the shop and straightened it.

When he took it back to the boy, he stated, "That will be \$5."

The boy, amazed at the cost, said, "I don't have that kind of money, so would you take the axle back and bend it again. I have to have an axle Sunday."

The axle was actually straightened without charge.

Letters Like These Just Never Reach Our Mailbox

By HAL BOYLE

NEW YORK (AP) — More fragments from letters some people would like to get—but rarely do:

"It is with real pleasure we inform you your recipe for making chocolate-flavored peanut butter patties has won first prize in our national contest. You and your husband can pick up the \$10,000 check—and the two round trip tickets to Paris—at our office whenever you..."

"Your boy's feat in pitching a no-hit victory for his kindergarten baseball team has come to the attention of our organization. In keeping with the program of the New York Yankees for long-term player development, we are willing to give your lad a \$60,000 bonus to sign with us now. Naturally, before reporting to us, we would prefer that he go on with his schooling—as later it will be necessary for him to autograph baseballs."

"We are returning your check for \$75, covering the latest installment due on your loan. When Bascom G. Goodheart, our president, died last month, he left a proviso in his will that all outstanding loans be canceled. So you owe us nothing. Would you like to start all over, and borrow some more?"

"And so, in recognition of the fact that you are the millionth customer for our new cars this year, the manufacturer is pleased to offer you the model of your choice with our compliments, plus free repairs for the life of the vehicle."

"No wonder you can't grow anything on that old farm you bought for your retirement years! The soil sample you sent is heavily saturated with ground oil. Our advice to you: Quit planting and start drilling—and then buy a home in Palm Beach. You ought to be able to bring in 10 gushers an acre."

"It was one of those unfortunate mix-ups which I'm sure you'll understand. But the fact is we had the wrong X-rays. It is not your wife who is going to have triplets."

"The President was so im-

posal so that you can fly to Washington to explain it to him in person. While all the cabinet posts are presently filled, there is always the opportunity that..."

OBITUARIES

Sam Allen Watson

Sam Allen Watson, 58, of 520 South Lafayette, died at Bothwell Hospital at 6:30 a.m. Thursday, following an illness of two years. He was born near Clinton, April 3, 1903, son of the late Samuel A. and Cora Watson. He moved to Sedalia in 1914 and resided here since that time.

On June 23, 1925, he was married to Miss Genevieve Slocum. Mr. Watson had been employed with the Missouri Public Service Company in Sedalia since 1922.

Surviving are his wife, Mrs. Genevieve Watson, one daughter, Miss Jennifer Watson, 12, and a foster son, Jack Leet, 16, all of the home; one sister, Mrs. Edith Brown, 401 East Boonville; two brothers, Oscar Watson, 319 East Boonville; and Virgil Watson, Childress, Tex. Also living in the Watson home are Mrs. Watson's mother, Mrs. Genevieve Slocum, and her sister, Mrs. Helen La-Clair.

He was preceded in death by his parents and one brother, Pearl Watson.

The body is at the McLaughlin Chapel where funeral services will be held at 2 p.m. Saturday with the Rev. H. E. Trevathan officiating.

Burial will be in Crown Hill Cemetery.

Lester Jett Rites

Funeral services for Lester Jett, 88, who died at Bothwell Hospital Tuesday morning, were held at the Ewing Funeral Home at 2 p.m. Thursday. The Rev. Charles Halbrook, pastor of the New Hope Baptist Church, officiated.

Mrs. W. L. Lewis sang "In the Garden" and "Good Night and Good Morning," accompanied by Mrs. Mae Moser Pulliam at the organ.

Burial was in Memorial Park Cemetery.

Mrs. Hattie Moore Rites

Funeral services will be held at 10 a.m. Friday at the Ewing Funeral Home for Mrs. Hattie Moore, 70, Miller, Mo., who died at 9:15 a.m. Wednesday at Bothwell Hospital. The Rev. E. F. Rohlfing, pastor of Trinity Lutheran Church, will officiate.

Mrs. Moore had been in failing health for three years. She was born at Cleveland, Ohio, Dec. 12, 1890, daughter of the late Henry and Anna Wiersch.

She was married at Cleveland, June 17, 1928, to Richard Moore, who survives. They were the parents of six children. One son, Richard Henry Moore, died at the age of one year. Mr. and Mrs. Moore lived in Illinois in their early married life and for the past 15 years resided near Miller.

Following the services the body will be taken to the Jones Cemetery near Albatross, Mo., where graveside services and burial will be at 2:30 p.m. Friday. The body is at the Ewing Funeral Home.

Henry A. Meier Rites

Funeral services were held at 2 p.m. Thursday at the Zion Lutheran Church in Lincoln for Henry A. Meier, 85, who died Monday at his home in Lincoln. The Rev. Oscar Heimsoth officiated.

Burial was in Zion Lutheran Cemetery.

Anne Louise Eckhoff Rites

Funeral services will be held at 2 p.m. Friday at the Gillespie Funeral Home for Anne Louise Eckhoff, 41, 2004 South Ingram, who died Tuesday at Bothwell Hospital. The Rev. Walter D. Niles, pastor of Wesley Methodist Church, will officiate.

Mrs. Jack Herndon, accompanied by Miss Lillian Fox at the organ, will sing "My God and I" and "Lead Kindly Light."

Pallbearers will be Donald Donath, L. V. Morris, Lloyd Satterwhite, Forrest Yoder, Siegel Woodard and Oliver Thomas.

Burial will be in Memorial Park Cemetery. The body is at the Gillespie Funeral Home.

Denver Jennison Rites

Funeral services will be held at 2 p.m. Friday at the Williams Funeral Home Chapel in California, Mo. for Denver Jennison, 62, former California resident, who died Wednesday at Kansas City. The Rev. Marvin Pitney will officiate.

Burial will be in California City Cemetery.

James M. Potter Rites

Funeral services were held at 4 p.m. Thursday at the Campbell Street Baptist Church in Fort Worth, Tex., for James Mitchell Potter, 84, a former resident of Sedalia and Clifton City, who died Tuesday at his home in Fort Worth.

Burial was in Laurel Land Cemetery in Fort Worth.

Mrs. Blanche Ripley Rites

Funeral services will be held at 9:30 a.m. Saturday at the Gillespie Funeral Home at 2 p.m. at the Mt. Tabor Church near Odessa for Mrs. Blanche Martin Ripley, 76, who died Wednesday. The Rev. Leonard Reifel, pastor of the Federated Church, will officiate at both services.

Pallbearers will be Lawrence Yancey, Robert Yancey, David Yancey, Ronald Yancey, Lloyd Morehead and Tom Cox. Burial will be in Mt. Tabor Cemetery. The body is at the Gillespie Funeral Home.

Orange Juice Dropped From Dinner's Menu

ATLANTA (AP)—The Georgia States Rights Council today dropped orange juice from the menu of a fund raising dinner the segregation-minded organization will hold at a downtown hotel Monday night.

Georgia and Florida are engaged in a retaliatory tax war involving citrus fruits and chickens.

"The menu originally featured steak and orange juice," a council spokesman said. "It has been changed to chicken and Georgia fruit juices because of the CCC." He explained that meant "Chicken-Citrus Controversy." Peach, apple and berry juice will be served.

Kiwanians Plan Annual Auction Of Merchandise

The Sedalia Kiwanis Club will hold its annual merchandise auction Saturday, July 29, at 1:30 p.m. on the courthouse parking lot.

A variety of articles will be auctioned. Kiwanians report, including new and used furniture, small appliances, auto supplies, groceries and many other useful items. Olen Downs will be the auctioneer.

Proceeds of the auction go toward a scholarship fund which the group intends to establish to benefit some high school graduate.

Those with articles to donate to the auction can contact Bill Dugan, pick up chairman, at TA 6-0142.

Noted Swedish Poet Is Drowned In Lake

MALMOE, Sweden (AP)—Noted Swedish poet Hjalmar Gullberg, 63, drowned Wednesday while bathing in Ydingen Lake near Malmoe in south Sweden. Gullberg was a member of the Royal Swedish Academy of Letters, which awards Nobel prizes.

Sub Hunters Poised For Space Shot

ABOARD AIRCRAFT CARRIER RANDOLPH (AP)—Four of the Navy's newest and hottest aircraft for detecting submarines by radar are poised for a job everyone hopes won't come—searching for the Liberty Bell 7 space capsule if it's lost at sea.

The four planes, parked on the hangar deck of this prime recovery ship for the scheduled Friday launching of astronaut Virgil I. Grissom, are WF2s—the Navy's latest airborne defender against the Soviet fleet of submarines, estimated by the Navy at more than 400.

The weird-looking aircraft, each with a huge radar dome that looks like a flying saucer, were developed as early-warning radar planes for use aboard attack carriers.

But officers of the Navy's famed Task Force Alfa—the special "hunter-killer force" of the Antisubmarine Warfare Service, told newsmen it was later found they also offer a powerful new defensive weapon for detecting submarine snorkels and periscopes.

So, only last April, the WF2—nicknamed the "Willie Fudd"—was made operational for anti-submarine warfare duty. And the Randolph is the only antisub carrier so far equipped with them.

Nine Drown As Downpour Dumps Flood

CHARLESTON, W. Va. (AP)—Thundering skies dumped a record cloudburst into suburban Charleston Wednesday night. Authorities confirmed that at least nine persons drowned and others were missing today.

Rainfall of 5.14 inches between 8 p.m. and midnight fed the flash flood. Small streams swelled and overflowed through narrow valleys on the fringes of the hill-rimmed city of 85,000.

Hardest hit was a narrow ravine called Magazine Hollow. Four bodies were pulled from there.

Wreckage of the flimsy frame houses and trees piled into a heap 20 feet high at a street intersection near the hollow's mouth.

The known dead were three men, two women and four children. The identities of most were not immediately established.

Rescue parties still searched for other possible victims in the houses smashed against the hill-sides.

National Guard trucks equipped with winches pulled down the wrecked dwellings while searchers looked beneath them for victims.

Hospitals and funeral homes identified these dead: Sherri Lynn Givens, 9; Mrs. Heien Givens, 38; Frank Sayre, 38; Carolyn Thompson, about 5, and Alex Voires.

A woman and two children—a boy and a girl—still were unidentified.

Sayre stepped from his car into a flooded street on the city's West Side. The current swept him under the car, and he drowned.

Mayor John Shanklin called for the city to be declared a disaster area.

One National Guard company was mobilized for rescue work. Refugee centers were set up in two high schools, the Salvation Army and the Union Mission to care for families driven from their homes.

The Fire Department ordered the gas company to cut off fuel to some sections of the city to minimize fire hazards.

The pre-dawn scene at Magazine Hollow was one of devastation. Uprooted trees were crazily propped against piles of torn and twisted house sidings.

\$5 Million Loan Authorized For Missouri University

COLUMBIA, Mo. (AP)—The University of Missouri has been authorized to seek a loan of up to \$5 million for construction of another residence hall and dining facilities.

Acting President W. Francis English said the board of curators authorized a request to the Federal Housing and Home Finance Agency for the loan. The money would be added to a \$1 million state appropriation for the construction.

The loan would be repaid with income from operation of the residence and dining halls.

Proposed is a three-building group consisting of two residence halls for unmarried students. One would house 600 women, the other 600 men. A dining hall would be used for both the women and men.

Delores Hopkins filed a petition for divorce against Bobby Hopkins in Circuit Court July 18. James E. Durely is the attorney for the plaintiff.

Marriage Licenses

Joseph Wayne Miller, Columbia, and Jacqueline Lee Gordon, Columbia. Ira Oscar McMackin, Mora, and Shirley Mae Stean, Route 1.

Police Reports

James Dean McCubbin, 11, son of Mr. and Mrs. J. M. McCubbin, 2008 East 15th, received painful but not serious injuries when bitten by a Boston Terrier about 6:30 Tuesday evening. The boy was treated by Dr. Carl Siegel and released.

The dog, which had not received rabies shots, was taken to Dr. Charles Monsees, DVM, who said dog was a little "ill tempered" but not rabid. The dog remains under close observation.

Poundmaster Marshall Bryan, according to the police report, said the terrier belongs to Kenneth Mosby, 2005 East 16th.

Police brought a red and white boy's 26-in bicycle to the station from Liberty Park Wednesday morning. It reportedly had been at the park for several days.

Wednesday morning police investigated an attempted break in at the Sedalia Public Library. The west rear basement windows were pried on but entrance was not gained.

Police Court

The cases of Lewis Franklin McMullen, Route 5, and W. S. Blair, 401 East Saline, both charged with careless and reckless driving in connection with an accident at Saline and New York Wednesday morning, were dismissed.

James Carl Oswald, 1300 South Warren, charged with running a stop sign, failed to appear and his \$5 bond was ordered forfeited.

Donald E. Warden, 300 West Ave., charged with speeding 38 miles per hour in a 30-mile zone, failed to appear and his \$10 bond was ordered forfeited.

Five overparkers failed to appear and their \$1 bonds were ordered forfeited and 190 others paid the 25-cent fee.

Circuit Court

Phyllis N. Pope was granted a divorce from Hayden G. Pope in Circuit Court July 19. Earl T. Crawford was the attorney for the plaintiff.

Clara Jean Spano was granted a divorce from G. Thomas Spano in Circuit Court July 19. Harold W. Barrick was the attorney for the plaintiff.

Veda Fern Thompson was granted a divorce from Carol Sue Thompson in Circuit Court July 19. Earl T. Crawford was the attorney for the plaintiff.

Russell F. Gault was granted a divorce from Helen Lucille Gault in Circuit Court July 19. William F. Brown was the attorney for the plaintiff.

Shirley M. Brock filed a petition for divorce against David I. Brock in Circuit Court July 18. J. R. Fritz is the attorney for the plaintiff.

Bernice Marie Gloth filed a petition for divorce against Larry David Gloth in Circuit Court July 18. Lamm and Barnett are the attorneys for the plaintiff.

Connie Buso was granted a divorce from Juan Buso in Circuit Court July 18. George H. Miller was the attorney for the plaintiff.

Anna Petree filed a petition for divorce against Orval Petree in Circuit Court July 18. James E. Durely is the attorney for the plaintiff.

Delores Hopkins filed a petition for divorce against Bobby Hopkins in Circuit Court July 18. James E. Durely is the attorney for the plaintiff.

Mary Lorene Boone filed a petition for divorce against Eugene E. Boone in Circuit Court July 19. Salvator and Keating are the attorneys for the plaintiff.

Delbert Arnold filed a petition for divorce against Mamie Arnold in Circuit Court July 19. Salvator and Keating are the attorneys for the plaintiff.

Dolly Hubbard filed a petition for divorce against Lee H. Hubbard in Circuit Court July 20. E. W. Cooney is the attorney for the plaintiff.

Damage to the vehicles, lawns, shrubs, trees, garages and other cars was estimated at \$7,500.

Police said it looked like the work of thrill-seekers.

One resident said he saw a car carrying several young persons speed from the scene.

ST. LOUIS (AP)—Two workmen were killed Wednesday when a 15-foot ditch caved in on them at a construction project in suburban Ballwin.

The victims were Steve Gibson, 25, of Madison, Ill., and Billy O'Brien Nance, 30, of Doniphan, Mo.

Two other workmen were injured by a second cave-in during a rescue attempt.

Another workman, Albert N. Pipkin, 57, of suburban Marvin Terrace, suffered serious chest injuries when a ditch caved in on him at another project in north St. Louis County.

Injuries Prove Fatal to Owner Of Gas Station

REEDS, Mo. (AP)—A filling station operator injured when a truck rammed into his place of business and started a fire died early today.

Raymond Alumbaugh, 60, had been hospitalized in critical condition with third degree burns and a right leg so badly crushed it had to be amputated.

Also hospitalized was George S. Pipkin, 45, of Ellis, Mo., driver of a car sideswiped by the truck. The truck driver, Ellick Edward Garren, 22, of Stella, Mo., was unhurt.

Support Increase To Helen O'Connell

SANTA MONICA, Calif. (AP)—Singer Helen O'Connell was granted an increase from \$450 to \$1,500 monthly support for her three children by Clifford Smith Jr., 40, heir to a Boston investment fortune. The couple was divorced in 1951.

Tipton Fair Attendance Runs High

Roger Kirchner of Syracuse dominated the sheep divisions while Loy Allee, Tipton, and Cline Brothers, California, picked up the most ribbons in swine competition as Tipton's 15th annual Tri-County fair opened Wednesday night. The fair ends Saturday night.

Fair officials reported a good attendance opening night, but no figures were available as the first night traditionally no admission is charged.

Competitors in the swine and sheep divisions were reported down from last year, but quality of the animals exhibited generally ran high.

Kirchner's Hampshire sheep took both the champion ewe and ram award in that division as well as the best flock, consisting of one male and three females. The champion sire and three or more of his get premium went to Howard Brothers of California.

Swine premiums: Hampshires—Don Basinger, California, champion boar. Dean Knipp, Tipton, champion sow.

Black Poland—Clenin Brothers, California, champion boar and sow.

Chester Whites—Clenin Brothers, California, champion boar and sow.

Yorkshire—Larry Albertine, California, champion boar and sow.

Berkshire—Dickie Roth, Clarksburg, champion boar and sow.

Sweepstakes—Dickie Roth, Clarksburg, best boar; Clenin Brothers, California, best sow; Loy Allee, Tipton, best boar and two females; Clenin Brothers, California, best barrow (170-200 pounds); Loy Allee, Tipton, best barrow (200-230 pounds); Loy Allee, Tipton, best pen of three market barrows (170-200 pounds).

Allee also had the champion barrow in the sweepstakes division.

W. H. Long, Clarksburg, showed the champion fox hound and also had the grand champion of all breeds in the fair's dog show.

Clarence Kuhn, Prairie Home, exhibited the champion coon hound.

Thursday night opens the first of three official Heart of America walking horse shows. Walking horse and gaited stake shows are slated for Saturday night.

Others in the drought-stricken county feel strongly about Peterson's resistance. Some of them feel forced to cut back on their herds. But they must hold their stock for three-day tests in sales rings, a costly item because of shrinkage.

One of Peterson's acquaintances described him as "a man of strong principles. He owns an air-conditioned Cadillac but he drives a Volkswagen because he feels the price of gasoline is too high."

KU's Reactor Works Fine In Month of Tests

LAWRENCE (AP)—The new \$146,000 nuclear reactor at the University of Kansas has operated satisfactorily in its first month of testing, a spokesman said.

"Everything has been satisfactory thus far," said Harold F. Rossen, assistant professor of chemical engineering. "There have been a few minor problems but nothing has hampered our testing to a great extent."

The university hopes to achieve full operation by Sept. 1. The reactor will be used primarily by graduate students for research and laboratory instruction.

The Missouri School of Mines in Rolla has a similar reactor and one is planned for Kansas State University at Manhattan.

Berserk Man Wounds Two In Hospital

ST. LOUIS, Mo. (AP)—A former mental patient grabbed a policeman's revolver and began shooting at 15 persons in the receiving room of City Hospital No. 2 today.

Two policemen were wounded and the gunman was killed in a running gun fight with another officer.

Police said the dead man, Richard Shackelford, about 26, was identified by a relative as a former mental patient. The relative didn't know why Shackelford was at the hospital.

Cpl. Raymond Oberlin, 45, shot in the groin, was reported in critical condition. Patrolman Virgil Page, 51, was wounded in a leg. At least four policemen were among the persons in the receiving room of the North St. Louis Hospital when the shooting began at 12:30 a.m.

Patrolman Earl Marshall and Roland Williams, 31, were sitting at desks writing reports on persons they had brought to the hospital.

Police said Shackelford suddenly jumped up from a seat, snatched Marshall's revolver from its holster, ran to the outer door, turned and began firing wildly.

Page and Oberlin were hit and went down.

Shackelford ran outside and Williams pursued him. The officer fired five times with his revolver and Shackelford fell dead.

Hospital attendants said they didn't know why the man apparently went berserk.

High Individual Scores Made At Rod, Gun Club

Bill Steljes, Dick Cole and Byron Barber of B&J Gun Repair each hit 24 targets for the high individual score at the Sedalia Rod and Gun Club.

First place derby winners were Bill Steljes, Roy Riggs and Charlie Robb with 24 targets. In second place with 22 were John Rose, Vernon Bingham, and Claude Luttmann of Versailles. Third place with 20 went to Bernard Dove, Gordon Smith, George Cummings and Joe Dennis.

The Skeet field is open every Sunday afternoon, and the First-25-Straight skeet trophy is still at the clubhouse waiting for someone to win it.

Trap Shoot team standings are as follows:

TEAM STANDINGS	
Cole and Cooper	819
Bing's No. 2	811

48 Participate In Ladies Day Event

Ladies Day became guest day at Elm Hills Golf Course Wednesday morning as ladies from the Country Club, Whiteman AFB and Warrensburg joined Elm Hills women golfers. A total of 48 women participated in the event.

Medalist for the day was Mary Anna Pehlham, from the Country Club, with a scratch score of 43.

Low from Elm Hills was Delores Gerlecz with a 44, tying Betty Lou Dugan of the Country Club who also had a 44.

The low from Whiteman was Ellen Carroll with a 53. Warrensburg's low score went to Olive Crandell with a 48.

Door prize was won by Hope Browning, Warrensburg. Evelyn Watson had the best poker hand and Marian Keens, Country Club, turned in the most honest score.

START OF RACE—When local Soap Box Derby entrants begin the race down the more than 600 foot track at the Fairgrounds Sunday they will be crouched low in their cars as shown in this picture taken in Akron, O., last year. The picture also points up the intricate designs of the boy-built cars.

Why No Orbital Trip?

Another Short Space Hop Will Increase Reliability

By ALTON BLAKESLEE
Associated Press Science Writer

CAPE CANAVERAL, Fla. (AP)—Why another Shepard-type short hop into space?

A main reason is to assure reliability of safe flight and return, says a space official. One trip doesn't do it.

But why not make this next trip to full orbital flight, like the one by the Soviet's Yuri Gagarin.

Answer, the bigger Atlas rocket needed for that is not ready.

Meanwhile, Capt. Virgil T. Grissom's flight is another step toward building reliability, and that could pay off tremendous dividends in space knowledge, Dr. Robert Voas, psychologist and training officer for Project Mercury, said.

Money is lost and hopes dashed when satellites carrying scientific instruments are lost, fail to work, or fail to be recovered.

With man aboard, his return must be guaranteed.

Assured return means recovering not only the instruments but what a man's eyes and brains also learned.

A man can change his mind, or change quickly his plan for observing phenomena in space or on the moon. Automatic instruments cannot. And instruments cannot discriminate between the trivial and the important, as can man, the judge.

Voas terms this a big reason for all the work, cost and risks

involved in sending man into space. It's his reply to scientists who have questioned whether man is needed in space.

Grissom's capsule will more nearly approximate the system to be used in orbital flight than that of Navy Cmdr. Alan B. Shepard, Jr.

Main changes are a picture window, and fewer jobs to do, so Grissom will have more time to look around and observe.

Man's space role is to observe and explore, as well as be pilot, said Dr. Voas.

Plans call for sending automatic instruments and then men to the moon, perhaps within 10 years.

Man can learn more than robots, and learn it faster, the psychologist holds.

"If you wanted to explore a desert in California, a handful of sand brought back by instruments could tell you something. But how many handfulls would you need before you understood the desert? Perhaps one man going to the moon could learn far more than many moon probes or satellites."

Men and instruments can complement one another in space.

About Town

Mrs. Jewel Blain Bollinger, 511 Dal-Whi-Mo Court, has returned home after a five month stay with her sister, Mrs. Jaunita Jones, Houston, Tex.

Fred Holtzen of Independence, former Sedalian, visited last weekend with his sister, Mrs. Mary Fajen, and her daughter, Miss Erma Fajen, 620 1/2 South Massachusetts.

for better results than either could produce alone, he adds.

Tiros III, the weather satellite, showed it could spot weather developments which could affect space flight timing.

Man's eyes could perhaps tell whether weather satellites could learn even more if they took pictures in colors, as man sees colors, Dr. Voas said.

Grissom's flight is regarded as another step up the ladder into space. It can check further on the effectiveness of earth-bound training for astronauts. And it can be a step toward nailing down reliable return of man and instruments.

Next Swim Program To Start July 31

The next phase of the American Red Cross swimming program, in Pettis County, will include two separate "life saving" qualification courses to be taught at the Liberty Park pool, in Sedalia.

The Junior Red Cross "life savers" begin instruction July 31, with the "senior" program beginning Aug. 15. Qualifications for Junior Red Cross life saving include a minimum age of 12 years and completion of water safety instruction. Senior Red Cross life saving is open to youngsters 16 years old or older.

No registration is required until opening day of the courses. Sessions begin at 6:30 p.m. weekday evenings. Each course is of 10 days duration.

Dodgers Back In Business

Move In On Redlegs With 8-3 Victory

By ED WILKS
Associated Press Sports Writer

The Los Angeles Dodgers are back in business in that National League race, and all it took was a pair of four-run innings and Johnny Podres' first complete game at Cincinnati in four years.

Those two big innings, plus Podres' nine-hit pitching, gave the second-place Dodgers an 8-3 victory in the opener of a two-game showdown series at Cincinnati Wednesday night and shaved the Reds' National League lead to 2½ games with their fourth straight loss.

St. Louis, the hottest club of the moment, kept third-place San Francisco eight games behind by beating the Giants 3-2 in 10 innings. It was the fifth straight success for the sixth place Cards. Milwaukee beat Philadelphia 8-5, but the last-place Phils took the second game of the two-night pair with two ninth-inning runs for a 2-1 victory. Rain washed out Chicago-Pittsburgh.

In the American League, the New York Yankees dropped two at Washington, 8-4 and 12-2, but retained a percentage point lead when second-place Detroit lost 4-2 to Baltimore. Cleveland beat Boston twice, 4-1 and 9-8, the Chicago White Sox defeated Kansas City 6-5 and Minnesota and Los Angeles split while setting a major league record with 39 strikeouts in a doubleheader. The Twins won the opener 6-0, then lost to the Angels 2-1.

The Dodgers came from behind with the first of their four-run bursts, in the third inning, against losing right-hander Bob Purkey (11-5). Singles by Norm Larker, Charlie Neal, Willie Davis and Wally Moon, plus Purkey's error and an infield out, did it. Larker, who had three of the Dodgers' 11 hits, and Neal singled again in a four-run sixth, with Neal's hit driving in two.

Podres (11-2) walked only one and struck out four in his first complete game at Crosley Field since July 28, 1957.

The Phils were blanked on three hits for eight innings by Carl Wiley (3-4) in the nightcap, then beat the Milwaukee right-hander on singles by pinch hitter Elmer Valo, John Callison and Lee Walls in the ninth.

In the opener, rookie Mack (The Knife) Jones batted in three runs with a triple and two singles.

Cards Win Fifth Straight; KC Record at Six

By THE ASSOCIATED PRESS

St. Louis won its fifth straight game with a 3-2 decision over San Francisco last night, and Kansas City went down to its sixth successive defeat by booting one to the Chicago White Sox on five errors 6-3.

It was Bill White again for the Cards. He belted a 10th inning single for the clinching run. Craig Anderson relieved Ray Sadecki in the ninth to pitch St. Louis out of trouble, and started the winning rally with an infield hit.

Anderson came in after Harvey Kuenn had slammed a game-tying home for the Giants and Joe Amalfitano had walked, then proceeded to retire six straight batters, striking out three.

LEAGUERS

Sedalia lost by one run for the sixth straight time this season in the opening game at Little League Stadium Wednesday night. Delozier held Post 16 to just one run for four innings, but Post 16 grabbed off three in the fifth and three in the sixth to win 7-6. Delozier allowed seven hits while taking the loss. Winning pitcher Vinsen allowed six hits. Green of Post 16 got a three bagger.

Elks blasted Moose 10-3 in the nightcap at Little League Stadium with winning pitcher Arnold tossing a nifty three hitter. Teammate Robinson tagged losing pitcher Palmer for a three bagger in the first. Elks crossed the plate seven times in a big first inning.

Adco took a 6-2 game from Elks in A-team play at Housel Park. Bell was the winning pitcher, and Paxton took the loss.

Emo pitched Adco to an 11-4 victory over Elks in B-team play. Shuester was the losing pitcher.

Same Deer Season Set For Fall

JEFFERSON CITY (AP)—The Missouri Conservation Commission set the same deer seasons for this fall and gave a break to sportsmen who hunt with both long bow and rifle.

By getting both an archery and a gun permit, a hunter may kill one deer by each method.

The gun season will run from Nov. 15 through Nov. 21, from 6:30 a.m. to 5 p.m. daily. Last year, gun hunters bagged a record 17,518 deer.

Bucks, does and fawns will be legal game in 53 counties including the 52 of last season plus St. Clair. In the rest of the state, only bucks are legal prey.

The archery season will run from Oct. 1 through Dec. 15, 5:30 a.m. to 6 p.m. daily. A record 263 deer were downed by bow and arrow hunters last fall.

The commission set a special archery season from Dec. 1 through Dec. 15 in the August A. Busch wildlife area in St. Louis County.

The Busch area also will have a special archery and gun season on squirrels from Aug. 15 through Aug. 29. Shooting hours will be from 8 a.m. to sunset. A special permit of 50 cents a day is required, in addition to a state hunting permit.

Seasons and limits on ducks and geese will not be set until next month.

These hunting periods were scheduled for other migratory birds:

Doves — Open from Sept. 1 through Oct. 10 and from Nov. 10 through Nov. 29, from a half hour before sunrise to sunset. Limits 15 a day and 30 in possession. Rails and gallinules—from Sept. 1 through Oct. 20, sunrise to sunset. Limits 15 a day and 15 in possession except on sora rail. A hunter may kill 15 a day and have 25 in possession on sora. Woodcock — From Nov. 10 through Dec. 19, sunrise to sunset. Limits of four a day and eight in possession. Wilson's snipe—From Oct. 1 through Oct. 30, sunrise to sunset. Limits of eight a day and eight in possession.

To DeMolay Finals With 2-Stroke Lead

ST. JOSEPH, Mo. (AP) — Defending champion Dick Landon of St. Joseph went into today's final round of the International DeMolay Golf Tournament with a two stroke lead.

Landon shot a 1-over-par 71 in Wednesday's second round for a 36-hole total of 147.

Bob Bender of Evansville, Ind., was second with 149. Tied for third at 154 were Joe Dudley of Oswatomie, Kan., and Lyford Smith of Center Conway, N.H.

All-Stars Tuning Up

EVANSTON, Ill. (AP) — The College All-Stars, tuning up for their Aug. 4 football game with the Philadelphia Eagles, scored three times in an 80-minute scrimmage Wednesday.

Quarterback Norm Sneed of Wake Forest passed 22 yards to Joe Bellino for one touchdown. Bill Kilmer of UCLA hit end Mike Ditka of Pittsburgh for a 23-yard payoff. Halfback Pervis Atkins of New Mexico State scored the third by skirting end from the 5.

Babe Ruth Tourney Underway Friday

NATIONAL LEAGUE ALL-STARS seen in top picture, from left to right: Front row—Fletcher Gravitt p., Tommy Gibbs p., Phil Matthews p., Raymon Briggs L., and Mike Rodick c. Back row—Larry Meredith L., Mike Riley

AMERICAN LEAGUE ALL-STARS in bottom photo, from left to right: Front row—Jim Meseloff L., Monty McQuitty L., David Wesley L., Bob Rieger c., and Bob Rucinas L. Back row—Jim Johnson p., Eddie Johnson p., John Johnson L., Jerry

The Babe Ruth National and American leagues will be host to All-Star Babe Ruth teams from Clinton, Buffalo and Boonville this weekend for the District All-Star Babe Ruth Tournament. Sedalia's Babe Ruth organization has two leagues, and one All-Star team from each league will be entered in the tourney.

Sedalia's National League All-Stars will play the opening game against the Boonville All-Stars Friday night at 8 o'clock on the Liberty Park diamond. Saturday afternoon the American leaguers

will play the Clinton All-Stars at 2 o'clock. At 8 p.m. Saturday the Buffalo All-Stars will play the winners of the National League-Boonville Friday night game. The championship game will be played Sunday at 2 p.m.

Sedalia Breakfast Optimist Club will be host to the tournament. John Herbst is district tournament director; Ed Mitchel, tournament manager; Lee Garrison, official scorekeeper, and Albert Fischel, umpire-in-chief.

Manager of the National All-Stars will be Wally McCown. Harold Harvey is head coach, and Lee Dow and Earnest Buso are coaches. Phil Matthews has been assigned the starting role for Friday night's game.

Bill Hopkins is skipper for the

American All-Stars. Leon Hall is coach, and Harold Ryan and Charles Shepherd are assistant managers. Jimmy Johnson (5-0) and Ronnie Miller (1-2) are probable starting pitchers for the squad.

For the past four weeks the two teams have staged practice games to prepare for the tourney. The Nationals defeated the Americans 7-5 in the recent Tuesday night game. Both teams played sound ball and seem to have their few remaining problems ironed out.

The Nationals got a bad break Tuesday when their catcher Mike Rodick fractured his hand. An American League runner was trying for home, and Rodick took the peg and collided with the runner near the plate. He got his man out on a good play, but the injury will keep him out for the remainder of the season.

Both of the local clubs are in good condition, and they are ready for a weekend of baseball and optimistic about the outcome.

Major League Stars
By THE ASSOCIATED PRESS

Bennie Daniels and Dick Donovan, Senators, handed first place Yankees first doubleheader defeat of season, 8-4 and 12-2, while allowing six and nine hits, respectively, and holding Roger Maris and Mickey Mantle to two hits in 15 at-bats. Maris was 0-for-7. Mantle was 1-for-4 in each game, belting his 36th home run in the nightcap, off Donovan. That broke a tie with Maris for the major league lead and put the Mick 19 games ahead of Babe Ruth's record-60 pace of 1927.

Jim Gentile of Baltimore regained the RBI lead in the AL with 85, leap-frogging both Maris and Mantle with a two-run, third-inning homer that beat Detroit's Jim Bunning (10-7).

Cleveland took two from Boston, 4-1 and 9-8; the Chicago White Sox beat Kansas City 6-5, the Los Angeles Angels took eighth place from Minnesota by beating the Twins 2-1 after losing the opener of the two-night doubleheader 6-0.

Bennie Daniels (5-5) and Dick Donovan (6-8), a pair of right-handers, beat the Yankees, holding Roger Maris and Mickey Mantle to two hits in 15 at-bats.

Maris was 0-for-7. Mantle was 1-for-4 in each game, belting his 36th home run in the nightcap, off Donovan. That broke a tie with Maris for the major league lead and put the Mick 19 games ahead of Babe Ruth's record-60 pace of 1927.

Play Boonville Tonight

Chiefs Suffer 11-1 Drubbing

Tipton drubbed the Sedalia Chiefs 11-1 Wednesday night at Liberty Park. For the locals it was a sad night sprinkled with five safeties including a double by Garrison.

Tipton attacked the Chiefs with 15 hits and took command of the game in the second inning after the Chiefs crossed the plate once in the first inning. Tipton scored two runs in the second and came through with five insurance runs in the sixth.

Jim Schnakenberg started for the sagging Chiefs. He gave up nine hits and eight runs in four and one-third innings. Terry Fletcher came on in relief and gave up six hits, good for three more runs. Schnakenberg fanned three men, and Fletcher struck out five.

Hammen went the entire route on the Tipton mound.

The Chiefs will play the Boonville Cadillacs tonight at Liberty Park. Game time is 8 o'clock. H. D. White will receive the starting role for Sedalia, and Bill Tebbe will start for Boonville.

Memo to the Washington Senators: No, no! You guys got it wrong. The New York Yankees are supposed to murder YOU!

Well, the Senators are 5-5 for the season against New York after making off with an 8-4 and 12-2 sweep Wednesday night that left the Yanks holding first place by only three percentage points.

The Detroit Tigers—the only outfit that's done better (6-5) against New York—blew a chance to pass the Yankees, losing 4-2 to the third-place Baltimore Orioles.

Cleveland took two from Boston, 4-1 and 9-8; the Chicago White Sox beat Kansas City 6-5, the Los Angeles Angels took eighth place from Minnesota by beating the Twins 2-1 after losing the opener of the two-night doubleheader 6-0.

Bennie Daniels (5-5) and Dick Donovan (6-8), a pair of right-handers, beat the Yankees, holding Roger Maris and Mickey Mantle to two hits in 15 at-bats.

Maris was 0-for-7. Mantle was 1-for-4 in each game, belting his 36th home run in the nightcap, off Donovan. That broke a tie with Maris for the major league lead and put the Mick 19 games ahead of Babe Ruth's record-60 pace of 1927.

Jim Gentile of Baltimore regained the RBI lead in the AL with 85, leap-frogging both Maris and Mantle with a two-run, third-inning homer that beat Detroit's Jim Bunning (10-7).

Cleveland took two from Boston, 4-1 and 9-8; the Chicago White Sox beat Kansas City 6-5, the Los Angeles Angels took eighth place from Minnesota

Open House To Commemorate Golden Wedding Anniversary

Mr. and Mrs. Louis V. Igo

Mr. and Mrs. Louis V. Igo of one-fourth mile west of Beaman, observed their Golden Wedding Anniversary Sunday, July 16, with open house at their home from two until five o'clock in the afternoon.

There were approximately 125 guests in attendance during the afternoon.

Mr. and Mrs. Igo were married July 17, 1911, in Sedalia by the

Rev. Paul Stoerker. Only one of their attendants, Mrs. Maude McFadden, is still living. She was unable to attend the celebration.

The home, in which the honored couple lives, is 100 years old. Mr. Igo was born there as were his two sons. The couple has spent their entire married life on the farm.

The home was decorated with several bouquets of cut flowers and the serving table was centered with a large wedding cake. Servers were Miss Diane Igo and Mrs. Beulah Griessen. Miss Jane Igo had charge of the guest book.

Among those present were, their two sons and families, Mr. and Mrs. Vincent Igo and children, Diane, R. N., and Mike, Liberty, and Mr. and Mrs. L. Louis Igo and children, Dan, Jane and Jimmy, Marshall; Mrs. Igo's sisters, Dr. and Mrs. Edward Fox, Chicago, Mrs. E. C. Thompson and Mrs. Beulah Griessen, both of Sedalia; John Curran, Brawley, Calif.; and Mrs. Arch Hancock, Marshall.

Mrs. Igo wore a lovely purple and white orchid corsage. The couple received many nice gifts and cards.

Global Patrol Duty Begun By A Nuclear Sub

CHARLESTON, S.C. (AP)—The USS Theodore Roosevelt, the nation's fourth nuclear-powered, polaris-armed submarine, left the Charleston harbor Wednesday for global patrol duty.

The 380-foot sub took aboard 16 thermonuclear warhead Polaris missiles at the arming base, then sailed under secret orders.

The other three Polaris subs now armed for action already are at sea. They are the George Washington, the Patrick Henry and the Robert E. Lee. Together with the Theodore Roosevelt, they carry 60 nuclear missiles.

Injuries From Fall Fatal to Youngster

KANSAS CITY (AP)—An 8-year-old girl died Wednesday night about four hours after she fell head first from a tree.

She was Doni Jean Fisher, a daughter of Mr. and Mrs. Donald E. Fisher.

The accident occurred in a park at 53rd and Brooklyn.

Action Film Of D-Day Is In Progress

By BOB THOMAS
AP Movie-TV Writer

PARIS (AP)—The voice of Darryl Zanuck came over the telephone loud and clear.

I had expected to see him at his Paris headquarters, but he was off filming one of the actors for his new movie. The actor: The United States 6th Fleet.

Zanuck is duplicating D-Day at Normandy. He's staging the allied invasion once more for his production of "The Longest Day."

"I'm in Corsica shooting amphibious maneuvers of the 6th Fleet," Zanuck announced on the long-distance wire. "This is the first of three maneuvers the Navy is putting on, and I've got six cameras shooting the ships and these wonderful Marines."

"I'm very fortunate in that all the ships are the same as those that were actually used in the Normandy invasion — landing craft and all. I was afraid we would have to fake them or write around it somehow."

Zanuck said he would spend the summer gathering six battle sequences—he has already filmed a British paratroop operation at Cyprus. In October he'll start the human part of the story. He hopes to use many of the original locations, including Von Rundstedt's bunker in France, Rommel's villa and Southwick House in Plymouth, where Gen. Eisenhower directed the invasion.

Mercury Hits Peak; Discuss Christmas

TOPEKA (AP)—The mercury touched 100 in Topeka Wednesday for the first time this summer and a committee from the Chamber of Commerce selected the decorations which will festoon downtown streets at Christmas time.

FEATHER DANCER—The fellow with the feathers on top is Jose Mendez. The 12-year-old descendant of the ancient Zapotec Indians of Mitla, Mexico, takes part in the famous feather dance of his ancestors. The students make the costumes as a part of the curriculum of the Oaxaca public school system. The gigantic feather headdress and costume date back to the 12th century.

Beef Steak, Roasts Perk Up Appetites

By THE ASSOCIATED PRESS

Supermarkets and neighborhood stores figure there is nothing like beef steaks and roasts to perk up summer appetites.

The great variety of beef offerings on the bargain list for the weekend include chuck, rib, cube and round steaks and chuck, rib and round roasts. Ground beef is widely featured, too, for cook-outs.

An abundance of poultry has driven prices of frying chickens down, in some sections of the country as much as 10 cents a pound from a week ago.

Fish specials along the Eastern seaboard and in the Great Lakes region include halibut, shrimp, haddock and whitefish.

In the East, leg of lamb is a special bargain.

New arrivals are flooding the vegetable markets from growing sections in many parts of the country.

Best buys among vegetables include beets, beans, cabbage, bulk carrots, nearby celery, Chinese cabbage, cucumbers, endive, escarole, green onions, radishes, all type of nearby lettuce, parsley, Eastern potatoes and watercress.

In the good-buy category are broccoli, carrots in film bags, California celery, corn, spinach, mushrooms, dried onions, field peas, California potatoes, squash, okra, peppers and tomatoes.

Liz Doing Okay After Surgery To Remove Scar

HOLLYWOOD (AP)—Elizabeth Taylor is reported in good condition after plastic surgery to remove a one-inch-long scar on her throat.

The operation was performed Wednesday and a spokesman said the actress is expected to leave Cedars of Lebanon Hospital in about four days.

The scar was a souvenir of Miss Taylor's near-fatal bout with pneumonia in London earlier this year. Surgeons performed a tracheotomy to ease her breathing.

Singer Eddie Fisher, Miss Taylor's husband, was at her bedside Wednesday.

Negotiate Purchase Of Small Cemetery

LOUISVILLE, Ky. (AP)—Jefferson County is seeking to purchase the church site and graveyard where former President Lincoln's grandfather and the forebears of former President Truman are buried.

Fiscal Court Wednesday called for negotiations to purchase the site of Long Run Baptist church near Eastwood and to put up a memorial after a suggestion from the church pastor.

The church burned several months ago.

Crisis After Crisis

First 6 Months In Office Prove Trying for Kennedy

Editor's Note—President Kennedy today turns the corner on his first half year in the White House. What's the record of his administration? Political writer Jack Bell and diplomatic writer John M. Hightower, veteran Associated Press newsmen, have joined in preparing this comprehensive analysis of Kennedy's first six months as president.

By JACK BELL and JOHN M. HIGHTOWER

WASHINGTON (AP)—President Kennedy is completing perhaps the most nerve-racking first six months any new chief executive has encountered since Abraham Lincoln plunged into the task of saving the Union 100 years ago.

With only a razor-thin mandate from the electorate, Kennedy has swept in his first half year in office into the vortex of world events he could not control. Crisis has tripped over crisis as he has sought to adjust his theories to the hard, practical realities of day-by-day operation of the presidency.

Lincoln—and for that matter, Franklin D. Roosevelt in the depression — were presented with tangible problems with which they could deal directly.

Kennedy has an oversupply of these and has made vigorous efforts to grapple with them. But he has greater and graver demands upon him in international areas—the toughening policies of the Soviet Union, for example—where he alone cannot call the shots and where his decision alone cannot be compelling.

The Congo... Cuba... Laos... Berlin... these crises have flashed across the screen. Kennedy has met all with ringing declarations. But his performance has not always matched his talk.

In the Congo, he made it abundantly clear that U.S. forces would be committed to prevent a Soviet takeover. With the aid of the United Nations, this plan worked.

In Laos his talk was not backed up with troops. He found that some SEATO allies, when consulted, had little urge to fight. He faced almost insurmountable supply difficulties. He had to resign himself to the vague hope that a neutralist government might somehow materialize from interminable talks in Geneva.

In Cuba there was fiasco and disaster. The American-trained invaders had no air cover and were defeated. Somebody in the administration slipped up, it is not quite clear just who, but Kennedy took all the blame.

In Berlin? The answer is yet to be supplied. Kennedy rallied the Allies for stiffly worded notes rejecting Soviet Premier Khrushchev's demand that the Allies abandon Berlin. The next move seems up to Khrushchev.

Open talk of the danger of war has caused Kennedy, meanwhile, to start developing plans for redeployment of U.S. armed forces.

In the late spring, as East-West tensions mounted, the President traveled to Europe for talks with two allies—French President Charles de Gaulle and British Prime Minister Harold Macmillan—and a somber conference at

Vienna with Khrushchev. At that session in the Austrian capital Kennedy and the Kremlin boss took each other's measure, but the deadlock appeared to harden.

In the transition of the government from the Eisenhower administration, the new chief executive has evidenced greater determination to regain the initiative from the Communists by cultivation of the neutrals and expanding international economic planning. He has put fresh stress on disarmament and a ban on nuclear testing.

But the Kennedy administration has yet to evolve any clear new policies for dealing with recurring crises. The style may have changed, but the policies scarcely differ from those followed by Dwight D. Eisenhower.

Enmeshed in international affairs, Kennedy has not had the time nor freedom of action he felt he needed to devote to all of the domestic problems pressing upon him.

As a result, major pledges he made to the American people in the 1960 campaign in which he won the presidency by a whisker appear likely to go unfilled, at least in 1961.

Unless the signs fail, there will be no action in this Congress on medical care for the elderly, to be linked to Social Security. The chance for enactment of an aid to education bill supplying grants for school construction and teachers' salaries is almost nil.

Congress has rejected his do-it-yourself farm program and is writing one of its own. His request for five-year authority to make \$8.8 billion in development loans to fledgling nations may have to be compromised.

Outside the legislative field, Kennedy has found no solution for the problem of increasing unemployment at a time when employment is reaching record levels.

He has had to accept a lowering of U.S. prestige—about which he talked much in the campaign—because of the fiasco of the Cuban invasion.

On the credit side of the ledger however, he has been able to stop, at least temporarily, the dangerous flow of gold abroad. Without much help from his administration, the economy has turned upward, eliminating the possibility of deficit-breeding tax cuts or any mammoth spending program.

With three or four major exceptions his legislative program has rolled along surprisingly well in a Congress heavily dominated by the Democrats.

By avoiding any recommendations for civil rights legislation which would stir up the Dixie members of his party, the President has been able to maneuver some important break-throughs in the usual Republican-Southern Democratic coalition.

Of 16 priority measures he listed in February, Kennedy has received 10: Social Security broadening, emergency unemployment benefits, aid for dependent children of unemployed fathers, depressed areas, minimum wage, feed grain, government reorganization, establishment of an office of International Travel, creation of 73 U.S. judgeships and ratification of the treaty for the Organization for Economic Cooperation and Development.

Highway financing and housing, not on the original list, were passed. Tax revision is moving forward slowly.

Kennedy currently is engaged in the most intensive personal campaigns put on by a president in a long time to get approval of his foreign aid program, including the long-range loan provision.

LOCATION OF DERBY TRACK — This drawing shows the location of the Soap Box Derby track at the State Fairgrounds. Entrance to the track will be immediately across the State fair railroad spur as indicated above. The gravel road at the city limits on West 16th will be used by derby officials to lineup cars. The site is known as the "old carnival grounds," and is outside the fair fence.

At Tuesday Meeting

Optimists Visit New MPS Substation West of Town

The new substation of the Missouri Public Service which is under construction one mile west of Sedalia was visited by members of the Optimist Club Tuesday noon. Few of the members of the club realized that MPS construction costing \$1,400,000 is being erected in this area.

The trip to the substation was arranged by Clinton Black, electrical engineer for the Missouri Public Service. Black had at the meeting W. B. Rich, district manager, George Stohr, Julius Stohr, Bill Hiatt, Keith Larsen and Tom Foster, who took the members of the club to the substation following the noon luncheon at Bothwell Hotel.

Their service, Mr. Rich pointed out, is so much a push button affair that people take electricity for granted without realizing what goes on behind the scenes in work and money to see that something happens when the buttons are pushed.

Black explained the purpose and cost of the huge power plant which is fast taking shape on 13 acres of ground purchased by the company from E. W. Thompson, for which plans have been made two or three years and construction underway since last December. There have been delays, however, and they are about 30 days behind schedule.

Men were at work on the structure and more material was being moved in as the group was returning to Sedalia.

The west end of the substation is the 161 KV bay, Black said, and it is so arranged that four 161 circuits terminate in it. One of the 161 KV circuits from Clinton to Sedalia is almost complete and will soon be terminated at the southwest corner of the 161 KV bay. This line will be capable of carrying 100,000 KVA.

Another 161 KV circuit will be constructed from Sedalia to a generating plant at Silbey on the Missouri River, and two 161 KV circuits will be built later to provide a strong tie with neighboring companies. These are still under study, Black said.

Each of these circuits will be brought in through an automatic oil circuit breaker. These will automatically disconnect the line if there is trouble on it without interrupting the rest of the station. This breaker weighs 51,500 pounds and is valued at \$50,000.

The largest transformer on the east changes the voltage from 161 KV to 69 KV and is the way two transmission systems are tied together. This transformer weighs 238,000 pounds, and is valued at approximately \$200,000. It will carry 50,000 KVA.

The 69 KV bay has provisions for four 69 KV circuits to terminate in it. Each of these will have an automatic oil circuit breaker to disconnect any one of the lines if it is in trouble without interrupting the rest of the station, Black explained.

To the north of the large transformer is a smaller one for reducing the voltage from 161 KV to 12 KV for local distribution. This transformer weighs 182,000 pounds and is valued at \$90,000. It feeds into a 12 KV bay which has provision for four circuits. The capacity of this transformer is 25,000 KVA.

One of these circuits will be brought out at the present time and will be tied directly across town to the power plant which will make it possible to feed the local load from the other end. Due to the weight and the strains of the lines, Black said, all of this equipment is on concrete foundations from six to ten feet deep.

The little metal building houses the meters and instruments that measure the flow of power and also tells when there is trouble on one of the lines and opens the proper oil switch.

The total cost of this station alone when completed will be approximately \$650,000, he said.

Soviet Goodwill Mission to Brazil

BRASILIA, Brazil (AP)—President Janio Quadros received a Soviet goodwill mission in this new capital Wednesday and handed its members Southern Cross medals. There were indications the mission, which brought a personal message from Soviet Premier Khrushchev, approached Quadros on re-establishing diplomatic relations.

Space Shot Resting On The Weather

By ALTON BLAKESLEE
Associated Press Science Writer

CAPE CANAVERAL, Fla. (AP)—For the third time astronaut Virgil I. (Gus) Grissom — and 5,000 men giving direct support — gambled today against tricky weather to permit his ride into space Friday.

Early weather odds indicated a 6-to-4 chance skies would be clear enough at 6 a.m., Eastern Standard Time, Friday for a go-ahead.

The gamble now is apparently all on weather.

Cloudy weather postponed Grissom's first attempt Tuesday and again Wednesday after he spent 3½ hours lying in his space capsule atop a fully-fueled rocket.

Grissom's pulse raced up to 120 counts a minute during the countdown that fell 10½ minutes short of blastoff.

But his doctor called that expectable in the excitement, and said Grissom always was in fine shape.

Grissom will spend the day in seclusion resting and continuing training for his trip designed to gain additional information in the wake of Cmdr. Alan B. Shepard's May 5 flight.

A new countdown began this morning to ready the Friday launching. Liquid oxygen was removed from the rocket, but the kerosene fuel was left in, and space officials said they expected everything to be ready on time.

Piccard Claims New Record In Balloon Flight

FARIBAULT, Minn. (AP)—Piccard, of the famous ballooning and deepsea diving family, claimed a new record for class IV balloons after going to 35,800 feet Wednesday night in a two-hour flight.

Piccard made the ascent in a 21,000-cubic-foot plastic balloon fabricated by the Scheldail Co. of Faribault, which also designed and built the still orbiting satellite Echo I. The firm employs Piccard.

Taking off from Faribault about 8 p.m., Piccard brought the balloon down near Zumbro Falls, Minn., 40 miles to the east about 10 p.m.

Demand Berlin Be Made a Free City

TORONTO, Ont. (AP)—Demonstrators singing ban-the-bomb songs paraded in front of the U.S. consulate Wednesday demanding Berlin be made a free city.

Electrocuted Man Revived By a Doctor

MINNEAPOLIS, Minn. (AP)—"I didn't know what the trouble was when Sgt. Fritz said to hurry."

"But when I saw the man on the ground, not breathing, I knew the only thing to do was to open his chest and try to get his heart beating again."

In these measured words, still carrying a strong accent, Dr. Jay Jedryzewski, a Polish refugee who spent three years in Hitler's concentration camps, told how he calmly made an 8-inch incision with a pocketknife in the chest of Earl Butler, felled on contact with 7,200 volts of electricity.

Butler, 42, sinking in a well in the yard of his suburban Fridley home late Wednesday, had been shocked unconscious when an extension of a posthole digger came in contact with a power line.

"Seeing him without any signs of life and learning he had been electrocuted," the doctor said, "I thought there was still a chance to work on him and bring him back to life."

"Yes, for all purposes he was dead. But maybe there was a 25 per cent chance to save him."

The 41-year-old doctor borrowed a pocketknife from Police Sgt. Lynus Fritz and opened Butler's chest cavity, inserting his right hand to massage the organ.

"Dr. Jay went in and kept working for more than an hour," said a policeman. "We kept wiping the sweat from his head as he worked." Fridley firemen administered oxygen.

"With the help of adrenalin into the heart the organ showed more and more signs of functioning," said the doctor.

"You could hardly call the heart self-sufficient, but after about an hour of massaging he started gasping for breath. This gave me the thought he might be saved; also his pupils, which at the beginning were completely dilated, showed signs of activity."

While Jay kept his hand in Butler's chest, firemen and police helped lift Butler into an emergency wagon.

The neighborhood general practitioner, sponsored in this country by Dr. James Doyle, Rochester, home of the Mayo Clinic, assisted in a hospital operation that closed the victim's chest.

Doctors later said Butler had about a 50-50 chance to live.

Denies Orders For Committee's Arrest

CAPE TOWN, South Africa (AP)—Foreign Minister Eric Louw has denied he ordered the immediate arrest of the U.N. investigating committee on South West Africa if it entered the mandated territory. Louw claimed he merely stated that if the committee crossed the border it would be detained and returned to the country from which it had come.

Says Gaza Strip Army Should Stay

UNITED NATIONS, N.Y. (AP)—Dag Hammarskjold said on Wednesday the 5,300-man U.N. army in the Gaza Strip should be maintained through 1962 to insure peace between Israel and its Middle East neighbors, despite an estimated \$836,000 boost in costs.

Sale of Control Devices Has Become Big Business

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—You set a gadget that keeps the roast from burning in the oven.

In troubled Kuwait or serene Aruba you would adjust an instrument to make sure that desalted sea water gets just the right amount of soda ash added, as needed, to make it tasty.

The power generating plant that supplies you with electricity has a device that assures a steady pulsing speed—otherwise your electric clock would never be dependable.

Oilmen use automatic gadgets to move widely differing products through the same complex pipeline networks without mixing.

Huge factories start or stop intricate industrial processes much as your thermostat turns the oven on and off to cook the roast to a turn.

It may be a simple switching device to regulate your furnace heat or the most complicated of electronic automation—it's known as process control. And the making of controls grows steadily and their variety multiplies—so does the list of firms making them.

There are now controls to ride herd on other controls as automa-

CANDID CAMEL—Reluctant to have his picture taken, this camel tries to tug himself free from actress Pier Angeli. Both Pier and camel are being filmed in "The Last Days of Sodom and Gomorrah" on the Moroccan desert.

tion spreads through more industries.

Annual sales of control devices are estimated at around \$200 million. And this doesn't include the cost of computers that may be checking up on or improving the operation of these mechanization devices.

"Computer control of processes is rounding out the industrial evolution which began when man discovered the principles of the lever and the wheel," says George E. Beggs Jr. He is executive vice president of Leeds & Northrup of Philadelphia, a veteran maker of control instruments.

During World War I, L.N. patented an experimental automatic control equipment, forerunner of the refined controls it now makes for industry.

Many automatic controls are involved in the space flights capturing today's headlines.

But they have many down to earth uses, too. They regulate not only temperatures, but humidity, pressure, air pollution, acidity, concentration of flow of gas or liquid, radiation, light intensity, mechanical load, weight, size and speed.

Plants such as in Aruba use a control instrument to measure the alkalinity of the desalted water, and if it falls below the standards of human taste the device signals a valve which adds enough soda ash to bring it up to the desired flavor.

'61 Feed Grain Program Points Must Be Heeded

Farmers who are taking part in the 1961 feed grain program will receive a reminder this week about cooperating fully with provisions of the program.

In letters addressed to each grower who filed a program application, C. A. Staples, chairman, Pettis County Agricultural Stabilization and Conservation Committee, points out that the acreage which a farmer agreed to divert from the production of corn or

grain sorghum this year must be devoted to an approved conservation use and it must not be harvested during 1961 or grazed after June 1 through Dec. 31.

He cautioned that a grower who did not live up to all the terms of the feed grain program could receive a reduction in the total payment to be earned under the program, or he might have to refund a part or all of the advance payment he had already received.

Furthermore, if at least 20 per cent of the farm's corn and grain sorghum base is not diverted, none of the feed grains grown on that farm this year would be eligible for price support. This would apply to corn, grain sorghum, oats, barley, and rye.

Growers who have any question about cooperation with the 1961 feed grain program are urged to get in touch with the county ASC office.

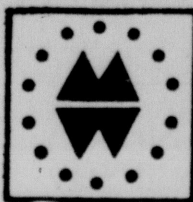

Garden Club Five Meets at Park

Garden Club 5 met Friday at Liberty Park for a picnic with Mrs. P. L. Strole, Mrs. Fred Wertz and Mrs. C. C. Edmonson, as hostesses. There were 17 members and three guests present. Guests were Mrs. Alma Hausam, Miss Janice Elgin and Mrs. Julia Tyler.

Mrs. R. S. Haggard, president, presided over the meeting and thanked everyone who had part in making the recent Flower Show a success.

Mrs. F. W. Koenig reminded the club of the State Fair workshop on Aug. 11 at 1:30 p.m. at the First State Savings building. Plans for the Missouri State Fair were also discussed.

Mrs. M. L. Edwards, who attended the recent convention in Kolla as a delegate from the club, gave interesting highlights of the meeting.

Says Farmer Is Receiving Federal Gift

WASHINGTON (AP)—Sen. John J. Williams, R-DeL., contended Tuesday about \$150 million has been paid to farmers this year to take out of production 4½ million acres of corn land which they never intended to plant.

Recalling an old joke about a farmer who bought the Brooklyn Bridge, Williams told the Senate Secretary of Agriculture Orville L. Freeman "is in an even greater dilemma."

"At least there was a bridge," he said.

Under the administration's emergency feed grains program, Williams said, Freeman paid out \$680 million to farmers who agreed to reduce crop planting more than 20 million acres below the 1959-60 average.

Quoting the Agriculture Department's crop reports, Williams said planted corn acreage was about 82.7 million in 1959 and 81.4 million in 1960, or an average of slightly more than 82 million acres for the two years.

The 20-million-acre reduction thus should have brought corn acreage down to 62 million under the emergency program, Williams continued, but he said the department's official report this month shows it at 66,619,000 acres.

To justify this, Williams said, the department revised its estimate on base corn acreage upward to more than 87 million acres, a gain of about 5 million acres.

"The government paid out for a 20 million acre reduction and got a reduction of a little more than 15 million acres," Williams said. "No matter how the reports are juggled, the figure is the same."

Calling this a \$150 million blunder, Williams said the 4½ million "phantom acres" are larger than all harvested crop lands in nine eastern states.

Bolt of Lightning Kills Two Golfers

NIAGARA FALLS, N.Y. (AP)—A bolt of lightning killed two golfers Tuesday when it struck a huge tree they were standing under during a thundershower at Buffalo's Hyde Park golf course.

They were Robert Taylor, 30, and Donald Bird, 34, both insurance agents.

SAVINGS BONDS' GROWTH—If you bought a savings bond in 1941 at \$75, in 1971 it will be worth more than 2½ times the amount you paid for it. When bonds first came out, they were bought as a patriotic investment in the future of the United States, as well as a way of saving. Today, during their 20th anniversary, U.S. Savings Bonds are still being bought by some eight million Americans. (Courtesy Westinghouse News)

Portuguese Ship Will Be Replaced

LISBON, Portugal (AP)—The Portuguese passenger-cargo ship Save, which sank off Mozambique with a loss of 259 lives last July 8, will be replaced by a new vessel, the owners announced Tuesday.

Celestino Ramos, director of the Companhia Nacional de Navegacao, owners of the ship, made the announcement on his arrival home after an investigation.

Jap Firm Bid Wins Dredging Contract

TOKYO (AP)—A Japanese firm has won a contract in international bidding to dredge the Suez Canal, the foreign office announced today.

Mizuno Gumi Co. of Hiroshima will sign the \$4,720,000 contract with the United Arab Republic government in Cairo July 25, the announcement said.

Plans call for doubling the canal's width and deepening it to

about 13.5 meters (44 feet) to allow the passage of more than 45,000-ton ships.

Ambulance Serv. TA 6-8000

Attendance Figure For Soap Box Derby

If everyone attends the Soap Box Derby race Sunday afternoon that has told the Jaycees they plan to attend, the attendance figure may be staggering.

The Jaycees have been conducting a survey by asking persons if they plan to attend, there has been no negative replies the Jaycees said except from those persons who will be out of town over the weekend on business or vacation.

It was estimated that approximately 20,000 cars could be parked in the area near the track, but officials say only about 2,500 seats will be available. Officials said they expect the crowd to come and go since the eliminations will last about four hours.

The track opens at 12 noon and arrow-type signs will point out the location of the track and parking lot. No cars are to be parked inside the Fairgrounds fence. The parking lot is immediately south of the Pittsburgh-Corning plant as shown on a map in today's edition.

Moscow-Peiping Argument
No Consolation For West

EDITOR'S NOTE—What do the differences between Moscow and Peiping mean to the United States? The effect they can have on the peace of the world is discussed by William L. Ryan in this article, last of a series of three dealing with the Soviet-China Relationship.

By WILLIAM L. RYAN
Associated Press News Analyst
Soviet and Chinese Communists have been and probably still are quarreling bitterly.

But, as Secretary of State Rusk has pointed out, there is little consolation in that for the West and no basis in it for new Western policy making.

In fact, the quarrel may have increased the dangers now besetting the West from the gathering storm over the future of West Berlin and Germany.

In the Moscow-Peiping quarrel, Khrushchev at this moment seems to have the upper hand. But he has paid a price, too.

The Red Chinese have, by implication, accused Khrushchev of being soft on capitalism. Probably as a result of the quarrel, he seems not so soft on it now as he appeared some time ago.

The evidence at hand indicates the Red Chinese have knuckled under to the Kremlin on this point: Moscow is the boss of world communism and its program. But the recent contemptuous treatment by the Russians of the Chinese party's 40th anniversary celebration hints the Chinese are not yet entirely convinced of the Kremlin's wisdom in all matters.

Bluntly Moscow has told the Chinese, "The basic criterion for true internationalism is one's attitude toward the Soviet Union," and there can be no Communist success without Soviet cooperation. Clearly this was a warning.

The current quarrel has been going on for several years, ever since Khrushchev's relaxations led to the Hungarian revolution and threw a scare into the Communist world.

The argument reached its height in mid-1960 at a Communist meeting in Bucharest, Rumania. It continued at a conference of 81 world Communist parties in Moscow.

Khrushchev accused the Chinese of "left sectarianism," apparently meaning they were advocating reckless policies in their insistence that war was fatally inevitable between East and West according to Leninist scriptures.

Mrs. Harbit Is
New President
Of Garden Club

Mrs. Wilson Harbit was elected president of the Sedalia Garden Club No. 6 for a two-year term at a meeting held July 15 at the home of Mrs. Joe Williams, Gravois Beach.

Other officers elected were: Mrs. Della Gasperon, first vice-president; Mrs. Alvin Heynen, second vice-president; Mrs. H. W. Balch, third vice-president; Mrs. James Harvey, secretary; Mrs. Roy L. Brown, treasurer; Mrs. Charles Satterwhite, corresponding secretary.

A contributed dinner was served and guests were: Wilson Harbit, Sedalia, Mrs. William Echerly, wife of the pastor of the Gravois Methodist Church, and Mrs. Herbert Young, daughter of Mr. and Mrs. Harbit and her two sons, Gale and Daniel, of Spokane, Wash.

In arrangements Mrs. Williams received first and in specimen, Mrs. Harbit received first.

The group enjoyed seeing Mrs. Williams flowers and rock collection.

The August meeting will be with Mrs. A. C. Runge.

ELECTRONIC SURGERY—The delicate work involved in making electronic parts has been brought to the point where engineers must have the skill of surgeons. At left, with the aid of a microscope, a Westinghouse specialist uses a hypodermic syringe to apply a plastic glue to bind a series of tiny switches. Right, the closely packed lattice-work gets more corrective surgery. Plastic gloves and surgical caps and gowns are standard equipment to insure immaculately clean surroundings.

War Trained McLean From Start to End

By TOM HENSHAW
AP Staff Writer

Most people march off to war. But not Wilmer McLean. He stayed home and, to his eternal dismay, the Civil War kept following him around.

It started in his kitchen; it ended in his front parlor.

The story of Wilmer McLean and his flight from the Civil War began on the afternoon of July 18, 1861, in his farmhouse not far from Manassas Junction, Va.

He was entertaining Confederate Gen. Pierre G. T. Beauregard when the big guns of the North and South began duelling across a little stream called Bull Run.

"A comical effect of this artillery fight," wrote Beauregard with a literary chuckle, "was the destruction of the dinner of myself and staff by a federal shell that fell into the fireplace."

The general from far off Louisiana may have been amused by the incident but the humor eluded McLean. After all, it was his fireplace.

Three days later on July 21 the battle of Bull Run, the first major engagement of the war, erupted not a mile from his farm. McLean threw in the sponge.

He packed up his family and retired to a quiet corner of southern Virginia where he was sure the war would never find him. His new home: Appomattox Court House.

There he lived quietly and presumably prospered until the morning of April 9, 1865, when he met a group of gray-clad horsemen riding down the Appomattox Road.

They were seeking, they told him, a well-appointed house where their distinguished companion, Gen. Robert E. Lee, might hold a quiet conversation with another general, Ulysses S. Grant.

McLean offered the best house in town, his own.

Thus it turned out that the man who entertained a Confederate general in his home on the first great battlefield of the Civil War, played host to another in the final episode of the war when Lee surrendered to Grant.

The war was over but, wrote an eye witness, McLean's "real trials did not begin until the departure of the chief actors in the surrender."

"The relic hunters charged down upon the manor-house and made various attempts to jump Mr. McLean's claims to his own furniture."

"Bargains were struck at once for all the articles in the room, and it is even said that some mementoes were carried off for which no coin of the realm was ever exchanged."

After the war, his home denuded of furnishings, McLean tried to recoup his fortunes by peddling pictures of his house. But, when the excitement had died down,

there wasn't much market for them.

Creditors auctioned off his property in 1869 and McLean wandered away to try his hand someplace else, a beaten man who just couldn't get away from a war that started at his doorstep and ended in his parlor.

Motor Firms Call Demands 'Dangerous'

DETROIT (AP) — Ford Motor Co. has taken the offense along with General Motors Corp. in attacking the contract bargaining goals of the United Auto Workers as inflationary and dangerous to the nation's economy.

Ford estimated it would cost some \$500 million over the next two years to adopt, just part of the UAW proposals.

The strongest company statement since bargaining began in the auto industry three weeks ago came Tuesday night from Ford's vice president for labor relations, Malcolm L. Denise.

Denise accused the union of using a "combination of discredited theory, opportunistic techniques, and extravagant proposals." He said these represented "a clear sign of danger to the economy of the nation."

Denise figured the union demands would increase hourly labor costs more than \$1.

UAW Vice President Ken Bannan, director of the union's Ford department, replied Denise's talk about inflation and his estimates of labor costs were "utterly ridiculous and false."

Bannan accused the company of trying "to hide its responsibilities to its workers and to the economy behind a phony inflationary smoke screen."

Earlier, General Motors told its 335,000 hourly workers their wages have more than doubled since 1947 and employe benefit plans had skyrocketed to 40 times the cost 13 years ago.

GM declared "the rapid increase in wages and benefit costs experienced in recent years cannot be sustained without inflation and the danger of slowing down the rate of growth of our national economy."

UAW Vice President Leonard Woodcock said he agreed with GM "that any settlement arrived at must not cause inflation." But he declared GM's pricing policies were a greater factor in inflation than labor costs.

Geo'town Extension Plans Rummage Sale

The Georgetown Extension Club met Wednesday at the Georgetown School.

The 4-H cooking class furnished, prepared and served a fried chicken dinner to 20 members.

Mrs. W. L. Alexander, president, called the meeting to order. The devotional was given by Mrs. A. C. Runge.

Mrs. Alexander asked the group for some ideas on a money making project. It was suggested and voted on to have a rummage sale at the home of Mrs. William Wright on North Grand July 28.

The next meeting will be Sept. 20 at the home of Mrs. C. V. Hud-

Registration Drive Slated by NAACP

ST. LOUIS, Mo. (AP)—The National Association for the Advancement of Colored People plans to launch a program to register 30,000 Negroes in St. Louis July 23.

The NAACP Tuesday said more than 90,000 Negroes are already on the voting lists here.

The campaign will run to Sept. 1 and will cover five wards which have large Negro populations.

Registration will be held in conjunction with Mrs. Alexander and Mrs. Burke assisting.

The Health and Safety lesson was given by Mrs. W. D. Dunham.

Several Secret Pal gifts were given out.

Ladies' Aid Makes Plans For Picnic

The Ladies Aid of the Grace Lutheran Church met Wednesday afternoon at the home of Mrs. Leonard Schmidt.

The president, Mrs. Schmidt, called the meeting to order, opening with a song. The devotional was given by Mrs. John Schmidt.

Plans were made for a Church picnic sponsored by the Ladies Aid to be held in July.

A Thank You note from Brenda Frieling was read. It was decided to purchase knives to sell to make money for the Aid.

Refreshments were served by the hostesses to the following: Mrs. Walter Schmidt, Mrs. Mary Hagemeyer, Mrs. Henry Frieling, Mrs.

Fish Pudding Hails From Sweden

SWEDISH FISH PUDDING: This version is not too rich for everyday use.

By CECILY BROWNSTONE
Associated Press Food Editor

Have you ever tasted Swedish Fish Pudding — one of the most famous of Scandinavian dishes?

We had always wanted to prepare this dish but the authentic recipes we came upon called for large amounts of butter and heavy cream that are too rich for ordinary family use.

Then a friend sent us her recipe for a delicious but everyday Swedish Fish Pudding. To arrive at this rule, our friend used three recipes translated from all-Swedish cook books, taking note of the features of each. We promptly tried this version and can recommend it as a delightful family supper dish. It is excellent, also, for a company luncheon or as one of the hot dishes on a supper-party smorgasbord.

You'll find that boiled new potatoes with fresh dill or parsley butter and Scandinavian-style marinated cucumbers are perfect go-alongs for this fish pudding.

If Swedish anchovies (different from those usually used in our country) are available, you can follow Scandinavian tradition and add one to the fish pudding, putting the anchovy through the food chopper with the fish.

The sauce accompanying this pudding includes shrimp, but it is entirely appropriate to substitute cooked lobster or sautéed mushrooms for the shrimp.

Swedish Fish Pudding

¾ cup sifted fine dry bread crumbs
1 pound fish fillets (fresh or thawed frozen)
¼ cup butter
5 tablespoons flour
1 teaspoon salt and ¼ teaspoon white pepper
2 eggs (separated)
2 cups light cream
Butter a loaf pan (9 by 5 by 2 ¼ inches); sprinkle bread crumbs evenly over bottom and sides. Put raw fish fillets through coarse blade of food chopper twice; now put through fine blade twice, adding butter with fish the last time. Mix in flour, salt and pepper. Beat egg yolks until thick and lemon-colored; stir into fish mixture. Gradually beat in cream with rotary beater (hand or electric). With clean beater, beat the egg whites until stiff but not dry; fold into fish mixture. Turn into prepared pan; cover tightly with foil. Place pan in another larger pan; pour boiling water into outer pan so it comes ¾ way up pan holding fish mixture. Bake in a moderate (350 degrees) oven one

Civilians Will Get Back Rule In Korea

SEOUL, Korea (AP)—The chief of South Korea's ruling military junta said the junta will announce by Aug. 15 plans for the return of power to a civilian government.

Maj. Gen. Pak Chung-hi told a news conference the junta would announce the future form of government and the time of transfer of power to civilians. He refused to give details.

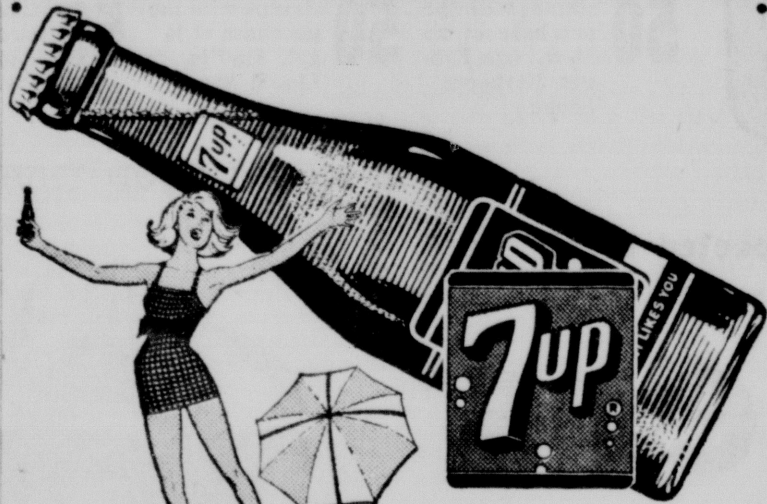

It was the first word that the military regime is making plans to return the government to civilian control.

Contractor Helper Found Dead Tuesday

FT LEAVENWORTH, Kan. (AP)—Robert Reed Smith III, 18, was found dead Tuesday in a house where he had been knocking plaster off a wall. The body was near an electrical outlet.

Smith worked for a contractor who is remodeling several houses on this Army post.

Ft. Leavenworth officers started investigating the cause of death.

More Time Given Vets For Loans

Veterans of World War II and Korean have been given additional time in which to apply for a GI loan by legislation signed last week by the President, W. F. Fidler in charge of the Veterans Administration officer here said today.

The extension applies to guaranteed or insured loans for homes, farms and businesses, and to direct home loans.

The new law provides for:

1. A phase-out eligibility formula under which a veteran will be eligible for a GI loan for 10 years from the date of his discharge from his last period of wartime service plus an additional year of eligibility for each three months of active wartime service.

2. An increase from the present \$13,500 to \$15,000 as the maximum an eligible veteran may get from the government as a direct loan.

3. A total of \$1.2 billion over the next six years for use in direct home loans by the VA.

Eligibility of a World War II veteran under the new law may not extend beyond July 25, 1967 in any case nor beyond Jan. 31, 1975 for any Korea veteran. A veteran discharged because of a service-connected disability will be eligible to apply until these final cut-off dates.

The new law provides that eligibility shall not terminate in any

case prior to July 25, 1962 for a World War II veteran nor prior to Jan. 31, 1965 for a Korea veteran, the cut-off dates under the old law.

Under the new law the administrator of Veterans Affairs may request a total of \$500 million from the Secretary of the Treasury for direct home loans during the fiscal year ending June 30, 1962 and may request the remainder of the \$1.2 billion over the next six years, through fiscal year 1967.

Direct loans are limited to specifically designated rural areas, towns and small cities where the administrator has determined that private mortgage money is not available for GI loans. Pettis, Johnson, Benton, Henry, Morgan, Cooper and Saline counties are included in the designated areas where direct loans may be made, Fidler said. Veterans in this area desiring direct loans for homes or farm homes should contact the Veterans Administration Office at 208 South Lamine Street here in Sedalia and have their name placed on the waiting list there.

Radio Station Sold In Tulsa, Oklahoma

TULSA (AP) — Sale of KTUL was announced Tuesday by James C. Leake, president of the Griffin Broadcast group, long-time owners of the station.

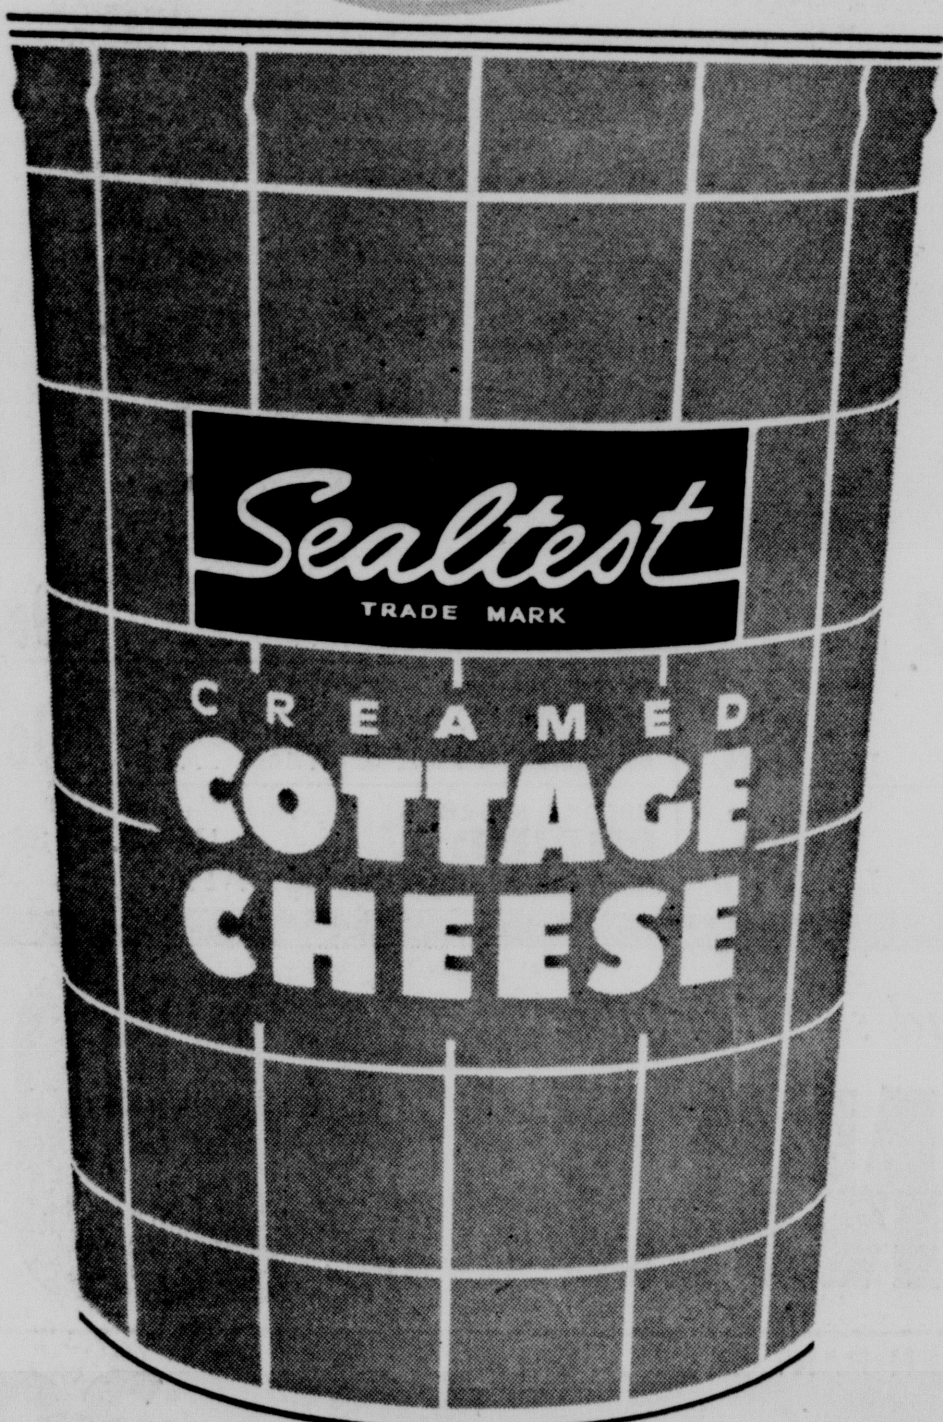

The assets were purchased by Texoma Broadcasting Co. of Wichita Falls, Tex. The price was not disclosed.

Founded in 1934 by J. T. Griffin of Muskogee, Okla., KTUL was the first radio station in Tulsa licensed for full time broadcasting.

The Griffin group also owns KATV, Little Rock television station.

Selling Is Everybody's Job

Secretary of Commerce Luther H. Hodges says the way to start things booming is for everybody to sell.

At a recent press conference the secretary said: "Try to go to a hotel and see how you are handled by a clerk or try a railroad for courtesy and you will see we are not doing half a job of selling in this country. We need six million experts on selling to get this country's economy program going."

No matter what we are trying to sell, the important things to consider thoughtfully are the needs of the customer.

Whether it is in goods, services or ideas, prosperity will be achieved more quickly if we remember to be courteous and use polite persuasive-ness.

Washington Merry-Go-Round

Fallout Shelters May Impress Reds

By DREW PEARSON

WASHINGTON—President Kennedy has decided that the most effective step the American people can take to show that they mean to stand firm over Berlin is an immediate air raid shelter program. As a result, the President will send a special message to Congress in the immediate future asking for all-out preparation against radio-active fallout both by the government, by cities and states, and by individual Americans.

The strategy behind this is to convince the Kremlin that the American people are willing to undergo atomic war—if necessary—rather than yield further in Europe.

It is no secret to the Kremlin that the American army has only 14 divisions against the Red army's 174; that the Red air force is now just as big as ours and that Russia has considerably more long-range missiles than the United States. Therefore the sending of a couple of extra U.S. divisions to West Germany would not impress the Kremlin.

What will impress the Kremlin is American willingness to undergo atomic war. Because its in the stockpiling of hydrogen and atomic bombs that the United States has a definite lead over Russia.

Do-It-Yourself Shelters

The President's message will point out that it's quite possible to organize fall-out shelters in a short space of time, and that this can be done by cities and individuals, as well as states and the federal government.

What is needed immediately is a survey of buildings with thick walls or interior accommodations to withstand radio-active fall-out. The interior of the Merchandise Mart in Chicago, for instance, one of the largest office buildings in the world, could serve as a fall-out shelter. Other office buildings could also serve.

They need to be surveyed, marked with signs and equipped with emergency food rations. Under the President's proposed program this is to be done in a hurry.

It's also possible for many families to transform their basements into fall-out shelters. The average basement can reduce fall-out damage to one-fourth or one-fifth. But if the windows are shored up with sandbags, the fall-out damage can be reduced by one two-hundredths.

This is something the average family can do in areas where the bomb does not actually hit. In areas where there is a direct hit, the problem is far greater and will require government initiative.

However, the President plans to lay the entire program before the American people in the very near future.

"Vice President" Sherman Adams

Friends of Sherman Adams report that at long last he is to get a job. He will become vice president of the Manufacturers Trust Company in New York.

Ever since he left the White House as Eisenhower's right hand man, Adams has been without employment. Eisenhower himself asked some of his business friends to take

Wilfred A. Peterson has put down a few suggestions for the art of selling:

"Courteous words instead of sharp retorts; smiles instead of blank looks, enthusiasm instead of dullness; response instead of indifference; warmth instead of coldness; understanding instead of neglect; patience instead of irritation; sincerity instead of sham; consideration instead of annoyance; remembering people instead of forgetting them; facts instead of arguments; creative ideas instead of humdrum; helpfulness instead of hindrance; giving instead of getting; action instead of delay; appreciation instead of apathy.

Let us get behind the Secretary of Commerce and earn more business by deserving the business we have.

Adams into their organization—without success.

However, Gabriel Hauge, chairman of the bank's finance committee, and former assistant to Eisenhower, has now intervened to get Adams placed as vice president of the Manufacturers Trust.

Note—One wise-crack going around Washington is that the dedication on the fly-leaf of Sherman Adams new book reads: "To Bernard Goldfine without whom I would not have had the leisure time to write this book." Actually it's dedicated to his wife Rachel. But on the page just before the table of contents appears another inscription: "I wish to acknowledge the help of Joe McCarthy in the editing of the final manuscript for publication." This has confused and startled some people, inasmuch as the late Senator Joe McCarthy once plagued Adams with many embarrassing problems, and if Adams had been able to establish contact with him, we should stop trying to send a man to the moon and concentrate on Sherman Adams' secret. However, Sherman's friend is another Joe McCarthy.

New York-to-Moscow

There's a very interesting inside reason why the Soviet Union has suddenly started bilateral treaty negotiations to give Pan American Airways and Aeroflot reciprocal landing privileges in Moscow and New York.

Original negotiations between Pan Am and Aeroflot began three years ago, but got nowhere. Now the Soviet has a very good reason for resuming them: It wants a short route to Moscow's newest and nearest satellite, Cuba.

Last winter, enroute home from South America, I traveled KLM because of the U.S. airplane strike and was interested in noting 30 Russian technicians on my plane enroute to Cuba. They had flown the long way round from Moscow to Amsterdam then south of Cuba to the Dutch island of Curacao, then north to Havana. This was because no Russian plane could land in New York on the shorter, easier route to Havana.

Now, if direct flights are OK'd for Pan American and Aeroflot, Russian passengers bound for Cuba will not have to take the long way round via the Dutch East Indies. They can merely stay on the big Aeroflot plane for an hour at Idlewild under immigration guard, then continue their flight south to Havana.

For Church Unity

The topic of Church Union has suddenly been thrust into the thinking of every thoughtful Christian. The recent 173rd meeting of the General Assembly of the United Presbyterian Church voted to proceed with an invitation to the Episcopal, Methodist and Church of Christ communions to examine the idea of church union.

Dr. Eugene Carson Blake's famous sermon delivered at Grace Cathedral in San Francisco on December 4, 1960, with its seven proposals for union, was debated pro and con at the General Assembly with the result that the vote was in favor of union among Protestant churches. The sole aim of the special committee appointed will be the inauguration of exploratory talks in the hope that someday these churches may resolve their differences and become one.

This movement is not the prerogative of the American church, but all over the world, churches are realizing that union is a way to overcome wasteful competition and a united front to better serve the common Master, Jesus Christ, who is the Church itself.

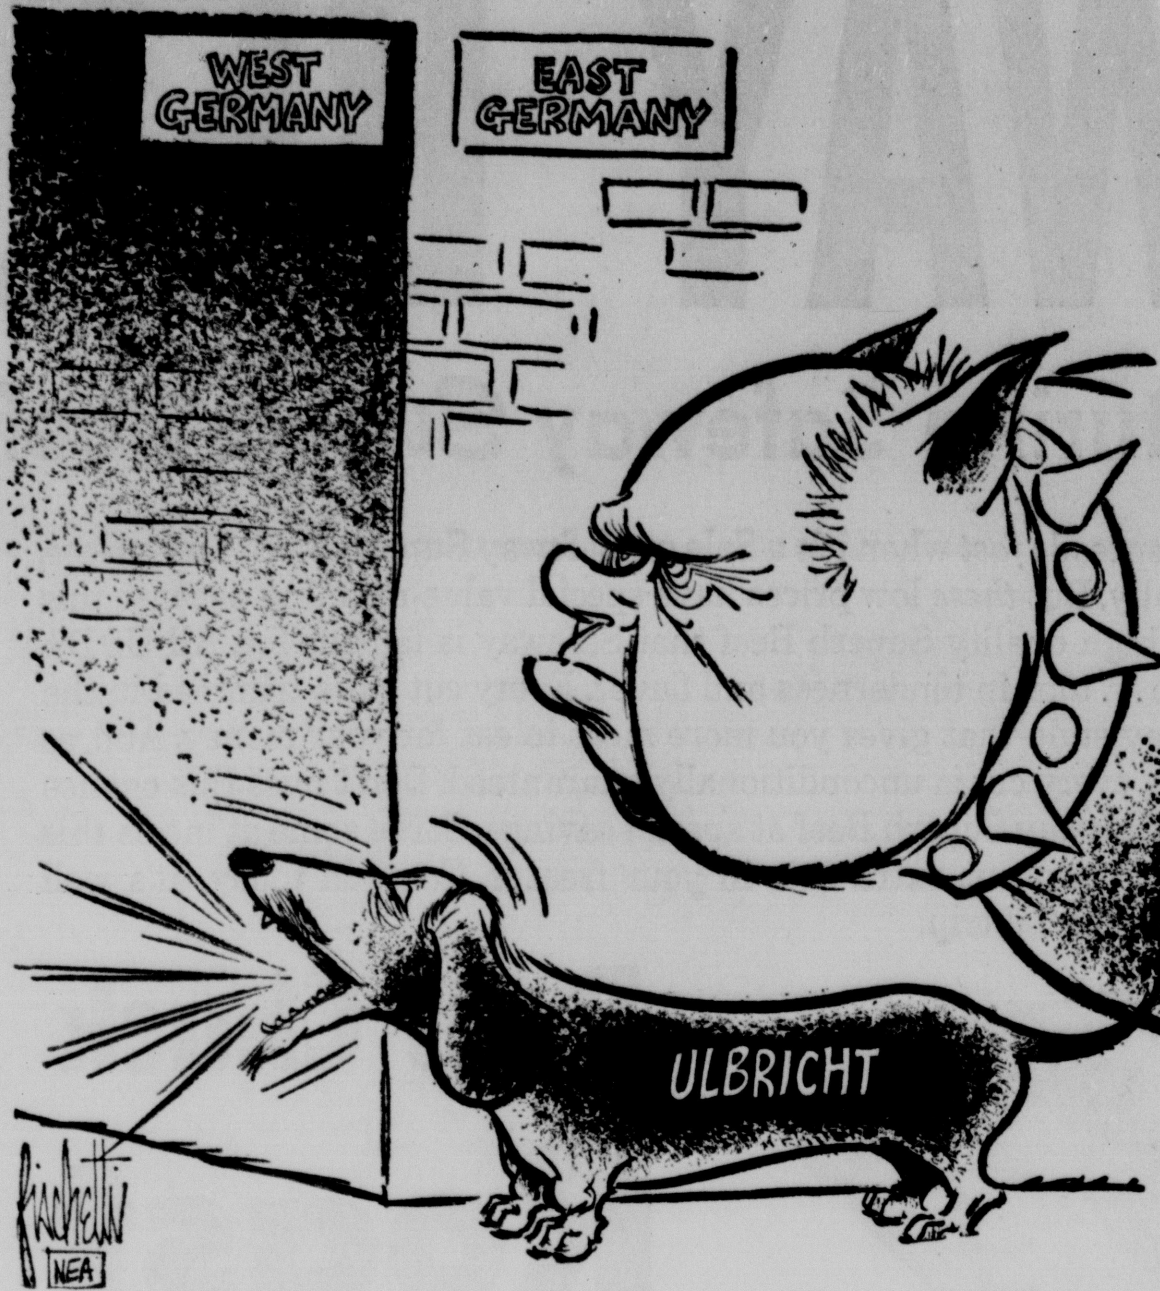

Alaska and Bombs

Because lichens thrive on fallout and caribou eat lichens and Eskimos eat caribou, the Atomic Energy Commission may encounter unexpected difficulties in the plans to use atomic explosion to carve out a harbor in Northern Alaska.

In the process of blasting out the harbor, the commission might also contaminate the food in the Arctic region so that radioactive strontium 90 would pass from plants into animals and thence into the bones of Eskimos. This situation was discovered by a group of scientists who are still considering whether the nuclear explosions could be conducted without serious jeopardy to the plant, animal and human life of the area.

If it is considered hazardous, then some archaic method of explosion will have to be used to carve out the harbor in order to save the Eskimos.

Dog Days

The World Today

Kennedy Is 'Wrestling' With Phantom

By JAMES MARLOW

Associated Press News Analyst WASHINGTON (AP) — President Kennedy is a speed-reader but if he could just read minds, too, this anniversary of his first six months in office would be a little more comfortable.

The greatest dilemma he knew he faced from the beginning—dealing with Premier Khrushchev—has caught up with him. But now that's here he's in a position of a man wrestling with a phantom.

He knew before he took office, because Khrushchev had said it would be this way, that sooner or later in 1961 the Russian once again would demand that the Allies get out of Berlin.

The last time Khrushchev did this—1958-59—he set a deadline for a settlement but then let it slide past. Now again the Russian has set a deadline. It's six months.

But what Kennedy doesn't know is whether Khrushchev means it this time.

So the best he can do on any

move he makes is guess. He had a choice: be firm or back up. He chose to be firm. But he appears more than just firm. He's been tough.

For instance: He has let it be known his administration is considering mobilization of the nation's armed forces. But in doing so—since he can't read the Russian's mind—all he can hope is that he's doing right.

He doesn't know if Khrushchev is bluffing. He doesn't know if the Russian just wanted to keep the pot boiling without any intention of a showdown in the hope he'd benefit by any weak spot that showed up in Kennedy.

If this guess is right, then it might be assumed a tough Kennedy might cool him off. But this isn't necessarily a correct assumption since it might have just the opposite effect on Khrushchev.

Kennedy toughness may force Khrushchev, even though he had started out bluffing, to feel he has to get equally tough, or tougher, or otherwise lose face

in a way that hurts both him and communism.

Yet if Kennedy showed weakness, even though Khrushchev had only meant to bluff, it would be an invitation to the Russian to push his luck and trample all over Kennedy and the West.

And Kennedy weakness could wreck the Western alliance. So Kennedy, while tough, hasn't been crude or brutal: he's left the door open for Khrushchev to talk sense.

At this moment in the Kennedy-Khrushchev give-and-take no concessions are being offered.

It's too soon for that. There'll still have to be various demonstrations of determination not to yield before the two sides can sit down to see whether they have anything to yield.

The danger is that the two men, because they know the whole world is listening and that therefore they must sound very sturdy, will talk themselves into such an impossible position that there can be no yielding and no turning back.

TIME OF YOUR LIFE

BY ARTHUR LORD

for practical advice on the problems of growing older.

AS YOU SEEK FAITH, YOU WILL FIND IT

Dear Arthur: I write not too good English.

We are born before 1900. We seen and been a part of so many wars in France before we come to this country sixteen years ago. We seen so much unhappiness. Our three sons died in the wars.

We look for a faith to believe in. There is so little to believe in. We believe in nothing anymore.

Francois

Dear Francois: Listen to the declarations of faith of a woman who led a life as sheltered as yours has been tragic and overfull:

"I never saw a moor, I never saw the sea; Yet know I how the heather looks,

And what a wave must be. I never spoke with God, Nor visited heaven; Yet certain am I of the spot As if the chart were given."

These lines by Emily Dickinson should be an inspiration and give you the courage to start visiting various churches and synagogues in your community. Consider what the ministers have to say. And as you seek your faith, you shall find it.

Dear Arthur: Can my social security checks be taken for the payment of a debt? Samuel

Dear Samuel: Social Security benefit checks cannot be assigned and are not subject to levy, garnishment, or attachment except for the collection of delinquent federal taxes.

Dear Arthur: I want to go to work. My children are grown, my house is small, and I have lots of free time. My husband thinks that if I take a job, it looks like he can't afford to support me.

Ruth

Dear Ruth: The wives of many millionaires work. Time hangs heavier on their well-manicured hands than it probably does on yours. The millionaires don't com-

The Doctor Says

Mysterious---But Benign---Pregnancy Complications

By Harold Thomas Hyman, M.D.

Correspondents have drawn to my attention a pair of mysterious, but fortunately benign, complications of pregnancy.

"During each of my three pregnancies," writes one mother, "I develop a rash that resembles large water blisters. Some are about 1/2-inch in length and they itch and burn. When they break, they leave brown scars. Do you know what causes this condition and what can be done to prevent it?"

The condition described is called Herpes gestationis. This is the Latin term meaning "a creeping rash during pregnancy."

Now herpes gestationis is classified by skin specialists as a variety of dermatitis herpetiformis (usually referred to as D.H.). and D.H. is also a descriptive term that means nothing more than an inflammation of the skin.

Fortunately, herpes gestationis is a mere nuisance disturbance. Why some get it and not others is a mystery. And why it tends

plain. Neither should your husband.

Dear Arthur: My husband Paul and I will celebrate our 50th wedding anniversary in a few weeks. We've never had much money so I'm stuck when it comes to getting him an anniversary present—and I'd like so much to give him a nice present. What do you think I should give him? Peggy

Dear Peg: If I were you, Peg, I know exactly what I'd do. I'd ask your pastor to officiate at a simple ceremony where you and Paul renew the sacred vows you took in 1911.

Invite a small group of friends, if you like, and see if this isn't a nicer present than any "store-bought" gift.

Dear Reader: Please send your questions to me, Arthur Lord, in care of this newspaper. Look for an answer to those of general interest in future columns.

Ruth Millett Says

Think Twice Before Wishing Hubby Home All the Time

For any wife who feels neglected because her husband's work keeps him away from home more than she likes, here is a little story with a moral to it.

In California a wife who thought she wanted all of her husband's time and attention persuaded him to give up his job so that he could devote all of his time to her.

Two years later their marriage had apparently suffered from too much togetherness and the wife was asking for a divorce. The wife has been ordered to supply lodging and support for her unemployed husband for a period of time, presumably, to give him a chance to find a job and to again become self-supporting.

So if your husband's job keeps him away from home more than you like, don't fret too much. If

you could have him all to yourself day after day, you might not find that arrangement as blissful as you imagine.

"Togetherness" in big doses can get mighty tiresome, as many wives whose husbands are "between jobs" or retired are frank to admit.

For a man without a job that keeps him on his toes isn't easy to live with, as a rule. And for all their feeling neglected when they think they are alone too much, most wives like to know that they can count on a husband's being away from home a certain number of hours a day. They can then get on with woman's work, without having a man underfoot to make it more difficult.

And there's that awful possibility that a man who can be persuaded that his work isn't important will look to his wife to support him.

So, wives of hard-working men—you had better let well enough alone. There are worse things than seeing too little of a husband, and one of them is seeing too much of him.

Democrat Pick-ups

By News Staff

THIS CONVERSATION between two women was overheard at the local swimming pool:

"I suppose you wonder why I came out here with my hair wet."

Yes, it does seem a bit unusual."

"Well, this morning I went into the bathroom, intending to put some oil on my hair. But guess what—the lid happened to be off the shampoo bottle!"—RHJ.

Looking Backward...

TWENTY-FIVE YEARS AGO Temperatures ranging from 106 to 112, breaking all time records, caused Sedalians considerable discomfort. Many sought relief at night by sleeping outdoors.

FORTY YEARS AGO

Dr. Walter E. Dandy, former Sedalian, now a noted surgery specialist, of Baltimore, Md., spent the day in Sedalia as the guest of Mr. and Mrs. J. K. Smith of East Fifth Street.

"Safety First" Is Nabbed for Speeding

SANTA MONICA, Calif. (AP)—Traffic officers here asked the name of a motorist they had halted for speeding.

Said the driver: "Safety First." Then he produced a driver's license issued to Safety First, 67, of 1427 Camden Dr.

The planet Mars, ruby red when viewed from earth, is less colorful up close. A visitor to Mars would probably find a cold, still world—a flat expanse of dry brownish soil as far as the eye could see with a gray-blue sky above. No mountain ranges or canyons break this monotonous view. On earth our closest equivalent to such a sight is in certain desert regions of the American southwest.

Guest Editorial

DALLAS TIMES HERALD: Supershopping. —Grocery stores tomorrow will be fascinating places. We quote:

"Housewives will arrive at the shopping center by helicar, be transported to the food market by the sidewalk conveyor and ascend to the selling area by ramp-conveyor or individual circular tube lift."

Once in the selling area, you might think the housewives would be on their own. But no: "They will mount cartmobiles, equipped with radar bumpers, for traveling around the huge, circular-domed multi-storied supermarket."

So related an architect attending a Dallas convention of the National Association of Retail Grocers of the United States.

With the physical ease of Milady (and her husband, who probably does most of the shopping) assured, there will remain need for only one further innovation. This is an automatic device to tell, with electronic certainty, by pushing of a button, what are really that day's best values.

That way shopping could be done in no time. Shoppers could catch a movie while watching the latest newscast while traveling home. There they would stop off on another sidewalk conveyor and await their groceries' arrival by food-expresscar. No?

Ann Landers Answers Your Problems

Dear Ann Landers: My husband can go around with a hole in his sock the size of a half dollar and never see it, but he's a perfectionist when it comes to his car. He takes it to the garage almost once a week, even though it runs fine and has never given us any trouble. The repair bills are a crime and I say they are for nothing.

The garage mechanic told my husband (in my presence last week) that there was nothing wrong with the car, but my husband left it anyway and insisted that they "go over it and find out what that odd humming sound is."

After dinner some nights he will go out to the car, start up the motor and sit there in the driveway for 20 minutes just listening. When he comes back he says, "There's a little trouble under that hood. I'll have to take it to the shop tomorrow."

What can I do? —

TEARING MY HAIR

Dear Ann Landers: It sounds to me as if the "little trouble" is under his hood. He needs a brain mechanic not a grease monkey.

If this is his only symptom, say nothing. It's an easy problem compared with excessive drinking, gambling and blonde trouble.

Dear Ann Landers: I fell madly in love with a guy who works in our office. He was eligible, good-looking, and had a terrific personality. We went together 11 months. I was happy as a lark.

He decided to go home and see his folks during his two-week vacation. He proposed before he left and I accepted. He returned — married. It seems he "re-discovered" his childhood sweetheart.

It almost killed me but I was pleasant and congratulated him with the others. Then, thank heavens, he was transferred to

life thoroughly, just take up with this scoundrel again. He's just the guy who can do it.

Dear Ann: Your suggestion for the mother whose two kids almost kill each other in the back seat of the car whenever the family takes a trip was something less than civilized.

Parents who must spank children confess that they have no imagination. It's easy to hit a youngster. It takes control and brains to figure out a peaceful solution.

It's understandable that two young ones get bored enough on a long trip that they may begin to fight. The parents should then put one child in front with Dad, while Mom sits in back with the other. Then change. In this way, Dad can point out spots of interest, and so can Mom, and everyone will have a better time.

THE PACIFIST

Dear Dilly: Your suggestion is an excellent one, and should be tried for variation, but not as a substitute for discipline.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped, self-addressed envelope.

c 1961, Field Enterprises, Inc.

WANNA PLAY?—Susie Vieck's little friend wants her to play with him, but the 12-month-old doesn't know whether she wants to play or just relax in the sun and look around at the big world of Vincennes, Ind., where the two live.

Moving Cemeteries For New Reservoir

LITTLE ROCK (AP)—Mt. Vernon Enterprises of Seligman, Mo., submitted the apparent low bid of \$10,987 Tuesday for relocating nine rural cemeteries which will be inundated by the waters of Beaver Reservoir in northwest Arkansas.

Four other firms bid on the project. The Army engineers estimated in advance it would cost \$13,190.

There are about 220 graves in the nine cemeteries, located in Benton County. They will be moved to a new cemetery near Rogers.
